SECURITIES AND EXCHANGE COMMISSION

SEC FORM 17-A, AS AMENDED

ANNUAL REPORT PURSUANT TO SECTION 17 OF THE SECURITIES REGULATION CODE AND SECTION 141 OF THE CORPORATION CODE OF THE PHILIPPINES

1. For the fiscal year ended
Dec 31, 2013
 2. SEC Identification Number
A200117595
 3. BIR Tax Identification No.
214-815-715-000
 4. Exact name of issuer as specified in its charter
Emperador Inc.
 5. Province, country or other jurisdiction of incorporation or organization
Philippines
 6. Industry Classification Code(SEC Use Only)
 7. Address of principal office
10th Floor Liberty Center, 104 H.V. dela Costa Street, Salcedo Village, Makati City
Postal Code
1227
 8. Issuer's telephone number, including area code
(632)-709-2038 to 41
 9. Former name or former address, and former fiscal year, if changed since last report
Touch Solutions, Inc., 901 Jafer Place, 19 Eisenhower Street, Greenhills, San Juan 1504
 10. Securities registered pursuant to Sections 8 and 12 of the SRC or Sections 4 and 8 of the RSA
- | Title of Each Class | Number of Shares of Common Stock Outstanding and Amount of Debt Outstanding |
|---------------------|---|
| Common | 15,000,000,000 |
11. Are any or all of registrant's securities listed on a Stock Exchange?

☒ Yes ☐ No

If yes, state the name of such stock exchange and the classes of securities listed therein:
 Philippine Stock Exchange, Common Shares
 12. Check whether the issuer:

(a) has filed all reports required to be filed by Section 17 of the SRC and SRC Rule 17.1 thereunder or Section 11 of the RSA and RSA Rule 11(a)-1 thereunder, and Sections 26 and 141 of The Corporation Code of the Philippines during the preceding twelve (12) months (or for such shorter period that the registrant was required to file such reports)

☒ Yes ☐ No

(b) has been subject to such filing requirements for the past ninety (90) days

☒ Yes ☐ No

13. State the aggregate market value of the voting stock held by non-affiliates of the registrant. The aggregate market value shall be computed by reference to the price at which the stock was sold, or the average bid and asked prices of such stock, as of a specified date within sixty (60) days prior to the date of filing. If a determination as to whether a particular person or entity is an affiliate cannot be made without involving unreasonable effort and expense, the aggregate market value of the common stock held by non-affiliates may be calculated on the basis of assumptions reasonable under the circumstances, provided the assumptions are set forth in this Form

P22,418,820,060.00 based on the closing price of P12.00 on March 13, 2014

**APPLICABLE ONLY TO ISSUERS INVOLVED IN
INSOLVENCY SUSPENSION OF PAYMENTS PROCEEDINGS
DURING THE PRECEDING FIVE YEARS**

14. Check whether the issuer has filed all documents and reports required to be filed by Section 17 of the Code subsequent to the distribution of securities under a plan confirmed by a court or the Commission.

☐ Yes ☒ No

DOCUMENTS INCORPORATED BY REFERENCE

15. If any of the following documents are incorporated by reference, briefly describe them and identify the part of SEC Form 17-A into which the document is incorporated:

(a) Any annual report to security holders

N/A

(b) Any information statement filed pursuant to SRC Rule 20

N/A

(c) Any prospectus filed pursuant to SRC Rule 8.1

N/A

PART I - BUSINESS AND GENERAL INFORMATION

1. BUSINESS

OVERVIEW

EMPERADOR INC. (the “Company”) is a holding company which through Emperador Distillers, Inc. (“EDI”) and its subsidiaries is an integrated manufacturer, distributor, and bottler of brandy and other alcoholic beverages. EDI has established its identity in the alcoholic beverages business with steady growth and production of high quality liquor. EDI has a product portfolio that consists of its own brands as well as licensed products.

The Company was incorporated as Touch Solutions, Inc. (TSI) in the Philippines on November 26, 2001 and listed its shares on December 19, 2011 under the symbol “TSI”. It used to operate an information technology (IT) business of providing IT services and products which it disposed in April 2013 by transferring substantially all assets relating to the IT business to a related IT company. On July 31, 2013, the Securities and Exchange Commission (“SEC”) approved the change in the Company’s primary purpose to that of a holding company. In August 2013, in line with the change in primary purpose, the stockholders of the Company approved, among others, the change in corporate name to “TrillionStars Holdings, Inc.” and the increase in capital stock to 20 billion from 100 million shares, which changes were approved by the SEC on September 5, 2013. On September 27, 2013, the SEC approved the change in corporate name from TrillionStars Holdings, Inc. to Emperador Inc. The Company’s shares are presently traded on the First Board of the Philippine Stock Exchange (PSE) under the symbol “EMP”.

Sometime in August and September 2013, Alliance Global Group, Inc. (“AGI”), the Company, and EDI, a subsidiary of AGI then, entered into a series of transactions whereby AGI acquired 88% ownership interest in the Company and the Company concurrently acquired 100% ownership in EDI from AGI. The Company thus became a subsidiary of AGI while the Company became the sole owner of EDI.

The Company’s acquisition of EDI is accounted for similar to a reverse acquisition of a non-operating shell company, wherein the legal subsidiary, which is EDI, is deemed as the acquirer and the legal parent, which is the Company, is deemed as the acquired.

EDI

EDI is the leading brandy manufacturer and distributor in the Philippines. It was incorporated on June 6, 2003 and it acquired the brandy manufacturing assets and related brands, namely, ‘Emperador’ and ‘Generoso’, of Consolidated Distillers of the Far East, Inc. (“Condis”) in January 2007. AGI subsequently acquired full ownership of EDI from The Andresons Group, Inc. (TAGI) and the Tan Family in February 2007. In April, 2009, EDI launched flavored vodka and gin beverages under ‘The BaR’ brand. ‘The BaR’ became the first flavored vodka and gin products manufactured by a Philippine company. In the third quarter of 2012, EDI introduced ‘The BaR’ cocktails line primarily targeted at younger alcoholic beverage consumers and female customers.

EDI began selling the ‘Emperador Deluxe’ brand in March 2013 which is being manufactured in Spain for export to Philippines under a supply agreement with Gonzalez Byass. EDI also acquired various Spanish vineyard lands as part of its plans to grow and vertically integrate its business.

EDI currently sells two principal brands: ‘Emperador’ brandy and ‘The BaR’ flavored alcohol beverages. EDI also distributes Ernest & Julio Gallo wines and Pik-Nik shoestring-shaped potato snacks. It operates two manufacturing plants in Laguna and an alcohol distillery plant in Batangas. The main plant is being leased from Tradewind Estates, Inc., a wholly owned subsidiary under AGI group.

It has 22 billion shares authorized capital stock, 12.5 billion shares of which were issued and outstanding as of to-date.

Subsidiaries of EDI

Emperador International Ltd.

Emperador International Ltd. is a business company incorporated in the British Virgin Islands on December 13, 2006. It is an investment and holding company which is involved in the international sales, marketing and merchandising of EDI's products. This group is responsible for the investments and properties in Spain.

Anglo Watsons Glass, Inc.

Anglo Watsons Glass, Inc. (AWGI), a wholly-owned subsidiary of EDI, was incorporated in the Philippines on July 22, 1999. EDI acquired AWGI from its previous owner, AGI, in 2012. AWGI's business consists of AGI's original flint glass container manufacturing business that was spun off in 1999. Flint glass is a plain, transparent glass that can be processed into a variety of shapes and sizes.

AWGI operates a manufacturing plant at the Canlubang Industrial Estate in Canlubang, Laguna, Philippines which runs on a 24-hour shift and has a capacity of 200 metric tons per day. The manufacturing plant is generally running at full capacity. Due to the high demand of EDI and capacity constraints, AWGI currently services EDI's bottling requirements only.

The Bar Beverage, Inc.

The Bar Beverage, Inc. was incorporated in the Philippines on August 11, 2008 for the purpose of engaging primarily in the manufacturing, processing, importing and/or exporting, buying, selling, acquiring, holding or otherwise dealing in, any and all kinds of alcoholic beverage products, flavorings, essences, beverages, softdrinks, foodstuffs, goods, wares, merchandise and/or commodities of the same or similar kind as well as products, natural or artificial, of the Philippines or elsewhere.

DESCRIPTION OF BUSINESS

Prior to the introduction of Emperador Brandy in 1990, the Philippine spirits industry was dominated by longstanding and well-established gin and rum manufacturers. Through dynamic marketing and by establishing a reputation for product quality, EDI created demand for brandy in the Philippine spirits market following the launch of Emperador Brandy. The Company believes that the 'Emperador' brand, which is marketed as a premium brand, has been the market leader among brandies in the Philippines in terms of sales volume since 1990. In particular, in 2010, EDI introduced the first light brandy, Emperador Light, to capture the taste preferences of Filipino consumers. Currently, Emperador Light comprises more than 90% of EDI's sales. In addition, EDI's flavored vodka, gin and tequila products under 'The BaR' brand were the first flavored vodka, gin and tequila beverages to be produced by a Philippine company. EDI produces brandy products that had more than 97% share of the Philippine brandy market in terms of sales volume (source: Nielsen Retail Index).

EDI has extensive nationwide distribution network that provides it with a distinct competitive advantage. Its distribution network is operated through 20 sales offices strategically located throughout the Philippines while its products are distributed across more than 100,300 outlets, including more than 90,000 sari-sari stores. In addition, EDI employs its own sales and distribution force consisting of approximately 1,100 personnel, approximately 600 of which are employees while the rest are outsourced from third party co-operators, and more than 200 vehicles. EDI employs a majority of its sales force in-house that has

resulted in a relatively higher level of motivation and incentivization among its employees and contributed to the strong growth in the sales of its products. This arrangement also enables EDI to work closely with its customers and develop strong relationships with them. It continually seeks ways to expand the reach of its distribution network, especially in the fast growing regions of Mindanao and the Visayas.

With the recent introduction of Emperador Deluxe, EDI is the first to bring an imported liquor brand produced entirely in Spain that focuses on the Philippine market.

PRODUCTS

Emperador Brandy, the first brandy label, was launched in 1990. In 2006, Generoso Brandy was launched as an extension of Emperador Brandy. In 2010, Emperador Light was introduced in response to a growing market for alcoholic beverages with lower alcohol content and targeted at younger alcoholic beverage consumers..

In 2009, “The BaR”, a flavored vodka and gin beverage was launched. The BaR is marketed as a ready-to-serve flavored alcoholic beverage with low alcohol content. The gin comes in lemon-and-lime flavor while the vodka comes in orange, apple and strawberry flavors. In 2012, The BaR Cocktails Margarita line was launched. The Company targets the sales of The Bar products to a younger demographic, specifically, the 18 to 24 year old age bracket. In March 2013, EDI introduced Emperador Deluxe Spanish Edition, a premium brandy imported from Spain that is created specifically to appeal to the Philippine palate.

The Company believes the introduction of a new sin tax regime on liquor, which became effective on January 1, 2013 with the effectivity of R.A. No. 10351, leveled the playing field for imported liquors and provided a prime opportunity to introduce Emperador Deluxe to the Philippine market.

Details of EDI’s brands are set out in the table below:

Brand	Description	Packaging	Indicative Retail Price Range	Target Market
Emperador Deluxe Spanish Edition	Premium luxury brandy of golden amber blend, with notes of Palomino grapes, toffee, almonds and honey. Warm, silky and full-bodied with 30.0% alcohol volume. Blended and bottled in Spain	700ml	P150.00- P170.00	Male consumers ages 30 and up, white collar in middle management level and socially upward mobile
Emperador Brandy	Deep rich gold color, light fruit bouquet, mellow, with medium body and a sweet aftertaste with 36.0% alcohol volume	375ml	P40.00	Mass consumers 25 years old and above, traditional brandy drinkers
		750ml	P80.00	
Generoso Brandy	Light brandy, light gold color, slightly fruity with a hint of oak, sweet taste with 32.5% alcohol volume	700ml	P65.00	Younger consumers 18 to 24 years old, women
Emperador Light	Light, fruity taste with 27.5% alcohol volume	500ml	P55.00	Younger consumers 18 to 24 years old
		750ml	P80.00	
		1.0 liter	P105.00	

Brand	Description	Packaging	Indicative Retail Price Range	Target Market
The Bar flavors- Apple Vodka Orange Vodka Strawberry Vodka Lemon and Lime Gin	Light, fruity and very easy to drink. Fruit flavored alcoholic beverage at 25.3% alcohol volume	700ml	P80.00	Younger consumers 18 to 24 years old, primarily women
The Bar Citrus Tequila	Tequila which incorporates lime and salt in the drink with 35.0% alcohol volume; intended as a “shooter”	700ml	P120.00	Younger consumers 18 to 24 years old, primarily women
The Bar Cocktails Margarita	Ready-to-serve margarita cocktail with 20.0% alcohol volume	700ml	P80.00	Younger consumers 18 to 24 years old, primarily women
The Bar Silver	Clear spirit with 35.0% alcohol volume	700ml	P80.00	Younger consumers 18 to 24 years old, primarily women

The indicative suggested retail price ranges set out above are EDI's suggested retail prices. Vendors may sell the products at higher or lower prices, depending on outlet margin requirements and their operating costs. The Government does not regulate the price of alcoholic beverages in the Philippines. However, manufacturers of alcoholic beverages in the Philippines are required to pay an excise tax on alcohol production based on the percentage of alcohol contained in the beverage and net retail price.

The Company also distributes 'Pik-Nik' brand shoestring potato snacks and Ernest and Julio Gallo wines. The 'Pik-Nik' brand is owned by AGI Group.

MARKETING, SALES AND DISTRIBUTION

Products are marketed, sold and distributed throughout the Philippines. Sales in National Capital Region accounted for approximately 30.0% of sales by volume. Sales volume in Provincial Luzon accounted for 47.0% and sales volume in Visayas and Mindanao accounted for 11.0% and 12.0%, respectively. A small volume of products is exported to the Middle East in response to the demand of the Filipino community living and working in the region. The Company attributes its leading position to: (i) strong brand equity gained through brand building; (ii) targeted marketing; and (iii) regular feedback from its in-house sales and distribution network.

Brand Equity

The Company believes that branding is a critical factor in a consumer's choice of beverage. Active brand promotion and advertising are essential tools to build image and market share, and establish consumer brand loyalty. EDI continually increases its market share by promoting its brands as distinct and unique with the objective to convey its unique and enduring message to promote its image and products. Marketing strategies focus on emphasizing Emperador Brandy's premium image to consumers as well as the motto: *"To true success."* EDI markets its brandies as a drink for the celebration of life successes though values of diligence, perseverance and responsibility. Its labeling includes a lion and a bullfighter wherein the lion symbolizes power and success while the bullfighter symbolizes grace and superiority. Emperador Deluxe carries the imagery of luxury and class. It is marketed as an affordable luxury for

everyday consumption. The Bar also has a premium image targeted at socially active younger drinkers, and is positioned as a “must-have” party drink; its tagline “*The Bar, Always Open*” aims to convey that the product can be conveniently enjoyed at all times and anywhere.

Targeted Marketing

To maximize market penetration, EDI supports both traditional advertising and marketing as well as proprietary market research tools. It uses multiple consumer research agencies and methodologies to assess consumer insight, trend, behavior and preferences, and markets its products accordingly. The brands are also marketed through an integrated 360-degree marketing campaign including the traditional above-the-line media, such as television and radio commercials, print and digital advertisements, including social media initiatives for Facebook and Twitter, below-the-line promotions and sponsorships. In addition, management supports creativity and innovation in product marketing by encouraging managers to take ownership of strategic geographic areas. It entrusts a high degree of responsibility for sales and marketing efforts to approximately 30 local managers. Its creative consumer research has qualitative and quantitative aspects and includes face-to-face interviews and information gathering exercises with consumers at local neighborhood events and gatherings.

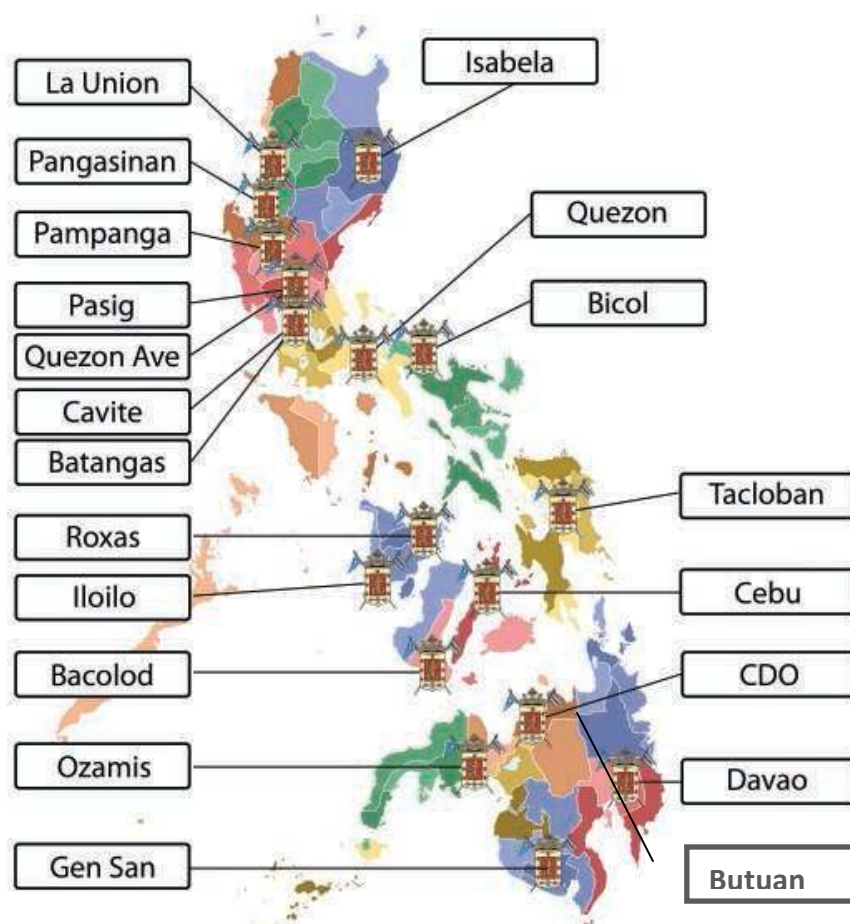

Sales and Distribution Network

The Company has a broad sales and distribution network which is one of its key strengths that will continue to drive its future growth. It has a distribution network of 20 sales offices located throughout the Philippines, which supply national and regional customers, hypermarkets, supermarkets, wholesalers, traders, grocery outlets, convenient stores, and local neighborhood small sari-sari stores. It does not sell its products to restaurants or bars directly, but courses its industrial business through industrial dealers. It employs a sales force of approximately 1,100 sales personnel, approximately 600 of which are employees while the rest are outsourced from third party co-operators, and has a direct delivery service for over 100,300 accounts (more than 90,000 of which consist of sari-sari stores) with a fleet of more than 200 direct sales vehicles. It uses direct sales vehicles such as cash vans to cover sari-sari stores across the country. Cash vans sell the brands directly to these small retailers on a cash-only basis, where the average transaction is for two cases.

The Company believes that the day-to-day interaction its sales team has with its trade partners is essential to maintaining product availability as well as access to its consumers. Standard sales terms include a credit period of 30 days before a buyer is required to pay for the Company's products.

The Company has a standard volume based pricing model that is applied evenly across all customer segments and discounts are offered on large volume transactions.

Set out on the following page is a map indicating the distribution network for the Company's products:

COMPETITION

The Company competes primarily against established Philippine spirits companies that produce and distribute brandy and other spirits to the domestic market.

The main competitors in the broad distilled spirits market mainly comprise of Ginebra San Miguel, Inc. (GSMI), manufacturer of 'Ginebra San Miguel' gin, and Tanduay Distillers, Inc. (TDI), manufacturer of 'Tanduay' rum. Direct competitor brands in the brandy segment include 'Gran Matador' brandy produced by GSMI and 'Napoleon' brandy manufactured by Limtuaco Distillery. A new entrant in 2013 is 'Comanyero' brandy from TDI. The Company also competes against imported labels. With respect to flavored vodka, gin and other alcohol products, it primarily competes with other local vodka and gin companies that also produce ready-to-serve alcoholic beverages such as Asia Brewery's 'Tanduay Ice' and TDI's 'Tanduay Cocktails' as well as imported labels.

The principal competitive factors with respect to the Company's products include brand equity, product range and quality, price, ability to source raw materials, distribution capabilities and responsiveness to consumer preferences, with varying emphasis on these factors depending on the market and the product. The Company believes it has a track record of proven strength on these areas.

The Company believes that its products are strongly positioned within their respective markets, as measured by market share and brand recognition. The Company produces brandy products that had an aggregate 97% share of the Philippine brandy market in terms of sales volume, according

to Nielsen Retail Index. The Company believes its 'Emperador' brand is a status brand in the Philippines, and is associated with a certain level of success and sophistication that its potential customers aspire to. The Company believes that its range of well-established and highly recognized brands present significant barriers to new competitors, and are particularly important to its ability to both attract and maintain consumers.

SOURCES AND AVAILABILITY OF RAW MATERIALS

The principal raw materials for the manufacture of the alcoholic beverage products are molasses, distilled neutral spirit, brandy concentrate, flavorings and water. It also requires a regular supply of glass bottles and packaging materials. EDI owns a distillery which produces distilled neutral spirit. It can also source it from local suppliers. Brandy concentrate and flavoring are sourced from several reliable and high quality European suppliers. All of the water for blending is sourced from two deepwells located in the Santa Rosa, Laguna manufacturing facility. The facilities in Laguna are located on top of one of the best fresh water supplies in the Philippines. There is also a filtration system for the water it uses at its Laguna facilities.

Bottles are sourced from AWGI, which produces a majority of the new glass bottles; and the rest are imported. EDI also reuses returned bottles. AWGI canvasses suppliers twice a year to seek the most competitive prices for its raw materials. While terms for different suppliers vary, AWGI generally orders raw materials to meet its projected supply requirements for one year and prices are subject to review on a quarterly basis. For imported raw materials, new purchase orders for supplies are generally sought two months prior to the expiration of existing purchase orders. For raw materials sourced in the Philippines, orders are finalized one month before existing orders terminate. At least three suppliers are maintained for major raw materials. In addition, major raw materials' suppliers typically maintain a warehouse in close proximity to the AWGI plant to cover possible delays in shipments and to prevent delivery interruptions. AWGI also maintains its own inventory of raw materials to prevent interruptions to production.

EDI sources final packing material such as carton boxes from at least three different local suppliers and closures from a supplier in China.

The Company has not experienced and does not anticipate any significant difficulty in obtaining adequate supplies of molasses, distilled neutral spirit, brandy concentrate, flavorings, bottles or packaging materials at satisfactory prices under its supply arrangements, and believes its relationships with suppliers are good. AWGI doubled its production capacity in the fourth quarter of 2012 and is able to manufacture enough glass bottles to meet the Company's requirements. The Company believes that AWGI has not had, and does not expect to have, difficulty sourcing glass bottles on behalf of the Company from third party suppliers, if required.

DEPENDENCE ON A SINGLE OR FEW CUSTOMERS

The Company is not dependent upon a single customer or a few customers, the loss of any or more of which would have a material adverse effect on the Company and its subsidiaries taken as a whole. There is also no customer that accounts for, or based upon existing orders will account for, more than 6% of sales.

TRANSACTIONS WITH AND/OR DEPENDENCE ON RELATED PARTIES

The Company has transactions with related parties such as AGI, subsidiaries, key management and other related parties under common ownership. These transactions generally comprise:

- Purchase of raw materials – Total purchases from Condis and Andresons Global, Inc. for the years ended December 31, 2011, 2012, and 2013 amounted to P7,687.2 million, P7,820.9 million, and P418.4 million, respectively. These purchases are typically payable within 30 days.
- Leases
 - In 2007, EDI entered into a lease contract with Tradewind Estates, Inc. (TEI) covering certain manufacturing facilities including, among others, a production building, storage tanks for raw materials and a water treatment area. Under the lease agreement, TEI also provided skilled workers to operate and maintain the leased machineries and equipment. When this lease agreement expired in 2012, the parties renewed it for a year and agreed on its renewability every year unless mutually terminated by both parties. Total rental expense for 2012 and 2013 amounted to P108.0 million and P84.0 million, respectively. EDI also paid P21.0 million to TEI as refundable security deposit.
 - In 2009, EDI entered into a five-year lease contract with Megaworld Corporation for the office space of its sales and bottling division. Total rental expense for 2012 and 2013 amounted to P14.4 million and P18.1 million, respectively. EDI also paid Megaworld a refundable security deposit.
 - EDI's subsidiary, AWGI, leases the glass manufacturing plant from AGI. The amount of rental is mutually agreed between AWGI and AGI. For both years 2012 and 2013, rentals amounted to P8.0 million per year.
- Sale of finished goods – Total sales to related parties for the years ended December 31, 2012 and 2013 amounted to P5.2 million and P27.0 million, respectively. These sales are generally non-interest bearing, unsecured and settled through cash within three to six months.
- Advances – EDI made advances to officers and employees as well as to related party suppliers such as Condis. These advances are generally non-interest bearing, unsecured, and payable upon demand in cash. In some instances, it obtained advances from related parties for its working capital, investments and inventory purchase requirements.

For a more detailed discussion of related party transactions concerning the Group, see Note 18 to the Company's audited consolidated financial statements filed with this report.

INTELLECTUAL PROPERTY

EDI owns registered trademarks, which are of material importance to the success of its business since they have the effect of developing brand identification and maintaining consumer loyalty. EDI's principal trademark is 'Emperador', which it purchased from Condis in 2007, in addition to associated patents, copyrights and goodwill and bottle designs for its brandy products. Its trademark for 'Emperador' is for a period of ten years expiring in 2015, and is renewable with the Philippine Intellectual Property Office ("Philippine IPO") thereafter for a period of ten years. It also registered the trademark for 'Generoso' and the trademark for its 'The BaR' flavored alcoholic beverage products in 2006 and 2008, respectively, while the trademark for "Emperador Deluxe" was registered with the Philippine IPO for a period of ten years.

The existing trademarks for Pik-Nik products are licensed and registered to EDI for 10-to 20-year periods and expire in 2015. The trademark licenses are renewable thereafter.

REGULATORY AND ENVIRONMENTAL MATTERS

Philippine local government legislations require a license to sell alcoholic beverages and prohibit the sale of alcoholic beverages to person under 18 years of age or within a certain distance from schools and churches. However, advertising and marketing of alcoholic beverages are largely unregulated in the Philippines, except that minors are not allowed to be employed for commercials or advertisements promoting alcoholic beverages.

In addition, approvals from the FDA are required before the Company can manufacture a new product. In addition, all new products must be registered with the BIR prior to production.

The Company is in compliance, and not aware of any material deviation, with all applicable regulatory, environmental, health and safety regulations. All the products are registered and approved by FDA. The Company monitors compliance of all stages of its production process with pertinent hygiene practices to ensure the high quality of its finished products.

Retail Trade and Liberalization Act

Republic Act No. 8762 is known as the "Retail Trade Liberalization Act of 2000" ("R.A. No. 8762") and was enacted into law on March 7, 2000. R.A. No. 8762 repealed R.A. No. 1180, known as "An Act to Regulate the Retail Business." R.A. No. 8762 liberalized the Philippine retail industry to encourage Filipino and foreign investors to forge an efficient and competitive retail trade sector in the interest of empowering the Filipino consumer through lower prices, high quality goods, better services and wider choices.

Retail trade is defined by R.A. No. 8762 to cover any act, occupation, or calling of habitually selling direct to the general public any merchandise, commodities or goods for consumption. The law provides that foreign-owned partnerships, associations and corporations formed and organized under the laws of the Philippines may, upon registration with the PSEC and the Department of Trade and Industry ("DTI") or in case of foreign-owned single proprietorships, with the DTI, engage or invest in the retail trade business, subject to the following categories:

- Category A – Enterprises with paid-up capital of the equivalent in pesos of less than U.S.\$2.5 million shall be reserved exclusively for Filipino citizens and corporations wholly-owned by Filipino citizens.
- Category B – Enterprises with a minimum paid-up capital of the equivalent in pesos of U.S.\$2.5 million but less than U.S.\$7.5 million may be wholly-owned by foreigners except for the first two years after the effectivity of R.A. No. 8762 wherein foreign participation shall be limited to not more than 60% of total equity.
- Category C – This category ceased to be available as a permitted category from March 25, 2002.
- Category D – Enterprises specializing in high-end or luxury products with a paid-up capital of the equivalent in pesos of U.S.\$250,000 per store may be wholly-owned by foreigners.

The foreign investor shall be required to maintain in the Philippines, the full amount of the prescribed minimum capital, unless the foreign investor has notified the PSEC and the DTI of its intention to repatriate its capital and cease operations in the Philippines. The actual use in Philippine operations of the inwardly remitted minimum capital requirements shall be monitored by the PSEC.

Foreign retail stores shall secure a certification from the BSP and the DTI, which will verify or confirm inward remittance of the minimum required capital investment.

No foreign retailer shall be allowed to engage in retail trade in the Philippines unless all the following qualifications are met:

- A minimum of U.S.\$200 million net worth in its parent corporation for categories B and C, and U.S.\$50 million net worth in its parent corporation for category D;
- Five retail branches or franchises in operation anywhere around the world unless such retailers has at least one store capitalized at a minimum of U.S.\$25 million;
- Five-year track record in retail; and
- Only nationals from, or judicial entities formed or incorporated in, countries which allow the entry of Filipino retailers, shall be allowed to engage in retail trade in the Philippines.

The implementing rules define a foreign retailer as an individual who is not a Filipino citizen, or a corporation, partnership, association or entity that is not wholly-owned by Filipinos, engaged in retail trade. The DTI is authorized to pre-qualify all foreign retailers, subject to the provisions of R.A. No. 8762, before they are allowed to conduct business in the Philippines. The DTI shall keep a record of qualified foreign retailers who may, upon compliance with law, establish retail stores in the Philippines. It shall ensure that the parent retail trading company of the foreign investor complies with the qualifications on capitalization and track record prescribed in the law.

Foods, Drugs and Devices, and Cosmetics Act

Republic Act No. 3720 ("R.A. No. 3720"), known as the "Food, Drugs and Devices and Cosmetics Act," was passed into law on June 22, 1963. Executive Order 175 later amended the title of the law to read, "An Act To Ensure the Safety and Purity of Foods and Cosmetics, and the Purity, Safety, Efficacy and Quality of Drugs and Devices Being Made Available to the Public, Vesting the Bureau of Food and Drugs with Authority to Administer and Enforce the Laws Pertaining thereto, and for Other Purposes." R.A. No. 3720 was further amended in 2009 by R.A. No. 9711 or "The Food and Drug Administration Act of 2009." R.A. No. 3720 was enacted as part of the government's policy of ensuring that safe and good quality of food is available to the people of the Philippines and to regulate the production, sale and trade of food in such a way as to protect the health of the citizens. R.A. No. 3720, as amended, defines "food" as any processed substance which is intended for human consumption and includes drink for man, beverages, chewing gum and any substances which have been used as an ingredient in the manufacture, preparation or treatment of food. Due to the nature of the business and operations of EDI, it is required to obtain a license from the FDA.

R.A. No. 3720 covers both locally manufactured and imported products and establishes standards as well as quality measures for food. A comprehensive enforcement framework was set up, which is deemed as necessary to ensure a pure and safe supply of food in the country. R.A. No. 3720 prohibits:

- The manufacture, importation, exportation, sale, offering for sale, distribution, transfer, non-consumer use, promotion, advertising, or sponsorship of any health product that is adulterated, unregistered or misbranded;
- The adulteration or misbranding of any health product;
- The refusal to permit entry or inspection as authorized by section 27 of R.A. No. 3720 or to allow samples to be collected;

- The giving of a guaranty or undertaking referred to in Section 12 (b) of R.A. No. 3720 which guaranty or undertaking is false, except by a person who relied upon a guaranty or undertaking to the same effect, signed by, and containing the name and address of the person or entity from whom he received in good faith the health products or the giving of a guaranty or undertaking referred to in section 12 (b) of R.A. No. 3720 which guaranty or undertaking is false;
- Forging, counterfeiting, simulating, or falsely representing or without proper authority using any mark, stamp, tag label, or other identification device authorized or required by regulations promulgated under the provisions of R.A. No. 3720;
- The using by any person to his own advantage, or revealing, other than to the Secretary of Health or officers and employees of the Department of Health or to the courts when relevant in any judicial proceeding under R.A. No. 3720, any information concerning any method or process which as a trade secret is entitled to protection;
- The alteration, mutilation, destruction, obliteration, or removal of the whole or any part of the labelling of, or the doing of any other act with respect to health products if such act is done while such article is held for sale (whether or not the first sale) and results in such article being adulterated or misbranded. Provided, that a retailer may sell in smaller quantities subject to guidelines issue by the FDA;
- The use, in labelling, advertising or other sales promotion of any reference to any report or analysis furnished in compliance with section 26 of R.A. No. 3720;
- The manufacture, importation, exportation, sale, offering for sale, distribution, transfer, non-consumer use, promotion, advertisement, or sponsorship of any health product which, although requiring registration, is not registered with the FDA pursuant to R.A. No. 3720;
- The manufacture, importation, exportation, sale, offering for sale, distribution, transfer, or retail of any drug, device or in-vitro diagnostic reagent, the manufacture, importation, exportation, transfer or distribution of any food, cosmetic or household/urban hazardous substance, or the operation of a radiation or pest control establishment by any natural or juridical person without the license to operate from the FDA required under R.A. No. 3720; and
- The sale, offering for sale, importation, exportation, distribution or transfer of any health product beyond its expiration or expiry date, if applicable.

The commission of any of the prohibited acts stated above can result in imprisonment and/or a fine, in the sole discretion of the courts. Furthermore, any article of food, drug, device or cosmetic that is adulterated or misbranded when introduced into the domestic commerce may be seized and held in custody pending proceedings, without a hearing or court order, when the Director General of the FDA has reasonable cause to believe from facts found by him or any officer or employee of the FDA that such health products may cause injury or prejudice to the consuming public.

R.A. No. 3720 provides:

A food shall be deemed to be adulterated if it bears or contains any poisonous or deleterious substance which may render it injurious to health, but in case the substance is not an added substance such food shall not be considered adulterated under R.A. No. 3720 if the quantity of such substance in such food does not ordinarily render it injurious to health. Food shall be deemed adulterated if it bears or contains

any added poisonous or added deleterious substance other than one which is a pesticide chemical in or a raw agricultural commodity for which tolerances have been established and it conforms to such tolerances. Food is adulterated if it consists in whole or in part of any filthy, putrid, or in part decomposed substance, or if it is otherwise unfit for food; Food is deemed adulterated if it has been prepared, packed, or held under unsanitary conditions whereby it may have become contaminated with filth, or whereby, it may have been rendered injurious to health likewise food is deemed adulterated, in whole or in part, the product of a diseased animal or of an animal which has died otherwise than by slaughter. Lastly, if the container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health, the food is considered adulterated.

Furthermore, food shall be deemed adulterated in the following instances:

- if any valuable constituent has been, in whole or in part, omitted or abstracted therefrom and same has not been substituted by any healthful equivalent of such constituent;
- if any substance injurious to health has been added or substituted;
- if damage or inferiority has been concealed in any manner;
- if any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight, or reduce its quality or strength, or make it appear better or of greater value than it is;
- if it bears or contains a coal-tar color other than one which is permissible under existing regulations;
- if it is confectionery, and it bears or contains any alcohol or non-nutritive article or substance except harmless coloring, harmless flavoring, harmless resinous glass less coloring, harmless flavoring, harmless resinous glass not in excess of four-tenths of one per centum, natural gum and pectin: Provided, that this paragraph shall not apply to any confectionery by reason of its containing less than one-half of one per centum by volume of alcohol derived solely from the use of flavoring extracts, or to any chewing gum by reason of its containing harmless non-nutritive masticatory substances; and
- if it is oleomargarine or margarine or butter and any of the raw material used therein consists in whole or in part of any filthy, putrid or decomposed substance, or such oleomargarine, margarine or butter is otherwise unfit for food.

A food shall be deemed to be misbranded if its labelling is false or misleading in any particular; if it is offered for sale under the name of another food; if it is an imitation of another food, unless its label bears in type of uniform size and prominence, the word "imitation" and immediately thereafter, the name of the food imitated; if its container is so made, formed, or filled as to be misleading; if it is in package form unless it bears a label containing (1) the name and place of business of the manufacturer, packer, distributor and (2) an accurate statement of the quantity of the contents in terms of weight, measure, numerical count; provided, that under this clause (2) reasonable variations shall be permitted, and exemptions as to small packages shall be established by regulations prescribed by the Secretary of Health, if any word, statement, or other information required by or under authority of R.A. No. 3720 to appear on the label or labelling is not prominently placed thereon with such conspicuousness (as compared with other words, statements, designs or devices, in the labelling), and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use; if it purports to be or is represented as a food for which a definition and standard of identity has been prescribed unless (1) it conforms to such definition and standard, and (2) its label bears the name of the food specified in the definition and standard, and insofar as may be required by such regulations, the common names of optional ingredients (other than spices, flavoring, and coloring) present

in such food if it purports to be or is represented as (1) a food for which a standard of quality has been prescribed by regulations as provided by section 13, and its quality falls below such standard, unless its label bears, in such manner and form as such regulations specify, a statement that it falls below such standard, or (2) a food for which a standard or standards of fill of container have been prescribed by regulations as provided by section 13 and it falls below the standard of fill of container applicable thereto, unless its label bears, in such manner and form as such regulations specify, statement that it falls below such standard; if its label does not bear (1) the common or usual name of the food, if there be any, and (2) in case it is fabricated from two or more ingredients, the common or usual name of each such ingredient; except the spices, flavorings and colorings other than those sold as such, may be designated as spices, flavorings and colorings without naming each: provided, that to the extent that compliance with the requirements of clause (2) is impracticable or results in deception or unfair competition, exemptions shall be established by regulations promulgated by the Secretary of Health; if it purports to be or is presented for special dietary uses, unless its label bears such information concerning its vitamin, mineral and other dietary properties as the Secretary of Health determines to be, and by regulations prescribes as necessary in order to fully inform purchasers as to its value for such uses; if it bears or contains any artificial flavoring, artificial coloring, or chemical preservative, unless it bears labelling stating that fact; Provided, that to the extent that compliance with the requirements of this clause is impracticable, exemptions shall be established by regulations promulgated by the Secretary of Health.

For purposes of enforcement of R.A. No. 3720 officers or employees duly designated by the Secretary of Health, upon presenting appropriate credentials to the owner, operator, or agent in charge, are authorized (1) to enter, at reasonable hours, any factory, warehouse, or establishment in which food, drugs, devices or cosmetics are manufactured, processed, packed, or held, for introduction into domestic commerce; and (2) to inspect, in a reasonable manner, such factory, warehouse, establishment, or vehicle and all pertinent equipment, finished or unfinished materials, containers, and labelling therein.

The Secretary of Health may cause to be disseminated information regarding food, drugs, devices, or cosmetics in situations involving, in the opinion of the Secretary of Health, imminent danger to health, or gross deception of the consumer. The Secretary of Health shall not be prohibited from collecting, reporting and illustrating the results of investigations of the Department of Health ("DOH").

Laguna Lake Development Authority Clearance

Republic Act No. 4850 as amended, created the Laguna Lake Development Authority ("LLDA") in order to promote and accelerate the balanced growth of the Laguna de Bay Region, with due regard for environmental management and control, preservation and preservation of the quality of human life and ecological systems, and the prevention of undue ecological disturbances, deterioration and pollution.

The LLDA is an attached agency of the Department of Environment and Natural Resources ("DENR") mandated to manage and protect an environmentally critical area which is the Laguna de Bay Region. It is empowered to pass upon and approve or disapprove all plans, programs, and projects proposed by local government offices or agencies within the region, public corporations, and private persons or enterprises where such plans, programs, and projects are related to the development of the region. The Company is engaged in industrial and manufacturing activities which are prescribed developmental activities mandated to secure an LLDA clearance.

The LLDA clearance is issued upon submission of an application and the supporting financial documents. An administrative fine is imposed on establishments operating, developing, or constructing without the necessary LLDA clearance. Any and all proposed, on-going, or completed expansion inconsistent with the previously issued LLDA clearance of an established must be covered by a new LLDA clearance. The change of name or ownership requires an establishment to apply for an amendment of the previously issued LLDA clearance.

Discharge Permit

LLDA Board Resolution No. 33, series of 1996 requires all development projects, installations, and activities that discharge liquid waste or regulated effluents into and pose a threat to the environment of the Laguna de Bay Region, to obtain a Discharge Permit from the LLDA. The Discharge Permit authorizes the owner or operator to discharge wastewater, provided the permit specifies the quantity and quality of effluent that the facility is allowed to discharge into a particular body of water in compliance with schedule and monitoring requirements.

The following activities, projects, or installations are exempt from securing the Discharge Permit:

- (a) Single residential buildings and similar human occupancy structures that have twelve cubic meters per day or less in total domestic sewage generation;
- (b) Dry industrial establishment that generates twelve cubic meters or less of total domestic sewage per day or with maximum of 212 workers and with septic tanks; and
- (c) Industrial or commercial establishment interconnected to central wastewater or sewage treatment plant or facility.

If the LLDA finds upon inspection that an activity, project, or installation is exempt from securing a Discharge Permit, it issues a letter acknowledging the exemption with a proviso that the exemption is without prejudice to subjecting the activity to regular monitoring.

Environmental Compliance Certificate

Development projects that are classified by law as environmentally critical or projects within statutorily defined environmentally critical areas are required to obtain an Environmental Compliance Certificate ("ECC") prior to commencement. The DENR, through its regional offices or through the Environment Management Bureau, determines whether a project is environmentally critical or located in an environmentally critical area. As a requisite for the issuance of an ECC, an environmentally critical project is required to submit an Environmental Impact Statement ("EIS") to the EMB while a project in an environmentally critical area is generally required to submit an Initial Environmental Examination ("IEE") to the proper DENR regional office. In case of an environmentally critical project within an environmentally critical area, an EIS is required.

The EIS refers to both the document and the study of a project's environmental impact, including a discussion of the direct and indirect consequences to human welfare and ecological as well as environmental integrity. The IEE refers to the document and the study describing the environmental impact, including mitigation and enhancement measures, for projects in environmentally critical areas.

While the EIS or an IEE may vary from project to project, as a minimum, it contains all relevant information regarding the projects' environmental effects. The entire process of organization, administration and assessment of the effects of any project on the quality of the physical, biological and socio-economic environment as well as the design of appropriate preventive, mitigating and enhancement measures is known as the EIS System. The EIS System successfully culminates in the issuance of an ECC. The issuance of an ECC is a Government certification, indicating that the proposed project or undertaking will not cause a significant negative environmental impact; that the proponent has complied with all the requirements of the EIS System and that the proponent is committed to implement its approved Environmental Management Plan in the EIS or, if an IEE was required, that it shall comply with the mitigation measures provided therein.

Project proponents that prepare an EIS are required to establish an Environmental Guarantee Fund ("EGF") when the ECC is issued to projects determined by the DENR to pose a significant public risk to life, health, property and the environment or where the project requires rehabilitation or restoration. The EGF is intended to answer for damages caused by such a project as well as any rehabilitation and restoration measures. Project proponents that prepare an EIS are mandated to include a commitment to establish an Environmental Monitoring Fund ("EMF") when an ECC is eventually issued. The EMF shall be used to support the activities of a multi-partite monitoring team which will be organized to monitor compliance with the ECC and applicable laws, rules and regulations.

Aside from the EIS and IEE, engineering, geological and geo-hazard assessments are also required for ECC applications covering subdivisions, housing and other development and infrastructure projects.

The Company incurs expenses for the purposes of complying with environmental laws that consist primarily of payments for Government regulatory fees. Such fees are standard in the industry and are minimal.

Excise Tax Law

The Company's alcohol products are subject to excise taxes which are currently pass on to consumers and form part of the sales prices.

R.A. No. 10351

Excise taxes apply to alcohol products such as distilled spirits, wines and fermented liquors, which are manufactured or produced in the Philippines for domestic sales or consumption or for any other disposition, including imported items. The excise tax imposed by law is in addition to Value Added Tax.

Spirits or distilled spirits are substances known as ethyl alcohol, ethanol or spirits of wine, including all dilutions, purifications and mixtures thereof, from whatever source, by whatever process produced, and includes whisky, brandy, rum, gin and vodka, and other similar products or mixtures. Proof spirits are liquors containing one-half of their volume of alcohol with a specific gravity of 0.7939 at 15°C. A proof liter is a liter of proof spirits.

Pursuant to R.A. No. 10351, excise taxes on distilled spirits shall be levied, assessed and collected as follows:

- Effective on January 1, 2013:
 - An ad valorem tax equivalent to 15.0% of the net retail price (excluding the excise tax and VAT) per proof; and
 - In addition to the ad valorem tax, a specific tax of ₱20.00 per proof liter.
- Effective on January 1, 2015:
 - An ad valorem tax equivalent to 20.0% of the net retail price (excluding the excise tax and VAT) per proof; and
 - In addition to the ad valorem tax, a specific tax of ₱20.00 per proof liter.
- Effective January 1, 2016, the specific tax rate of ₱20.00 shall be increased by 4.0% every year thereafter, while the ad valorem tax shall remain the same.

- Medicinal preparations, flavoring extracts, and all other preparations, except toilet preparations, of which, excluding water, distilled spirits form the chief ingredient, are subject to the same tax as the chief ingredient.

The tax is proportionally increased for any strength of the spirits, and the tax attaches to this substance as soon as it is in existence as such, whether it be subsequently separated as pure or impure spirits, or transformed into any other substance either in the process of original production or by any subsequent process.

The net retail price shall be determined by the BIR through a price survey under oath. Revenue Memorandum Circular ("RMC") No. 90-2012 issued on December 27, 2012, provides for the initial classification, effective January 1, 2013, of distilled spirits, based on the 2010 price survey conducted by the BIR. Distilled spirits introduced in the domestic market after the effectivity of R.A. No. 10351 are initially taxed at suggested net retail price.

The suggested net retail price means the net retail price at which locally manufactured or imported distilled spirits are intended by the manufacturer or importer to be sold in major supermarkets or retail outlets in Metro Manila for those marketed nationwide, and in other regions, for those with regional markets. At the end of three months from the product launch, the BIR will validate the suggested net retail price of the new brand against the net retail price and determine the correct tax on a newly introduced distilled spirits. After the end of nine months from such validation, the BIR shall revalidate the initially validated net retail price against the net retail price as of the time of revalidation in order to finally determine the correct tax on a newly introduced distilled spirits.

Understatement of the suggested net retail price by as much as 15.0% of the actual net retail price results in the manufacturer's liability for additional excise taxes equivalent to the tax due and the difference between the understated suggested net retail price and the actual net retail price.

Manufacturers and importers of distilled spirits, within 30 days from the effectivity of R.A. No. 10351 and within the first five days of every third month thereafter, submit to the BIR a sworn statement of the volume of sales for each particular brand of distilled spirits sold at his establishment for the three-month period immediately preceding.

Any manufacturer or importer who misdeclares or misrepresents in the sworn statement any pertinent data or information shall, upon final findings by the BIR that the violation was committed, be penalized by a summary cancellation or withdrawal of the permit to engage in business as a manufacturer or importer of distilled spirits. Any corporation, association or partnership liable for any of the acts or omissions in violation of the provision on excise tax for distilled spirits under R.A. No. 10351 will be fined treble the amount of deficiency taxes, surcharges and interest which may be assessed. Any person liable for, or who wilfully aids or abets a personally liable for, any of the acts or omissions prohibited under the excise tax laws will be criminally liable and penalized under the National Internal Revenue Code of 1997, as amended (the "Philippine Tax Code"). Non-nationals will be deported immediately after serving the sentence.

BIR Issuances

To implement R.A. No. 10351, the BIR issued Revenue Regulation ("RR") No. 17-2012 on December 26, 2012. Among others, RR No. 17-2012 provides that for purposes of tax classification, alcohol or tobacco products, whether imported or domestically manufactured, shall be taxed according to their individual brand name (whether or not with prefix or suffix), color and/or design of label (such as logo, font, picturegram, and the like), manner and/or form of packaging or size of container of the product. RR No. 17-2012 also provides that all cigarettes whether packed by hand or packed by

machine shall only be packed in twenties (20s), and through other packaging combinations which shall result to not more than 20 sticks of cigarettes: provided, that, in case of cigarettes packed in not more than 20 sticks, whether in five sticks, 10 sticks and other packaging combinations below 20 sticks, the net retail price of each individual package of 5s, 10s, etc. shall be the basis of imposing the tax rate prescribed under R.A. No. 10351.

The BIR also issued RMC No. 3-2013 on January 9, 2013, which clarified that "ethyl alcohol, ethanol, or spirits of wine, including all dilutions, purifications and mixtures thereof" were separate and distinct distilled spirits from "whisky, brandy, rum, gin and vodka." Consequently, both groups of distilled spirits should be subject to separate and distinct excise taxes. However, on February 15, 2013, the BIR issued RMC No. 18-2013, which amended RMC No. 3-2013 insofar as ethyl alcohol is concerned. RMC 18-2013 provides as follows:

The importation of ethyl alcohol or ethanol intended for re-sale or for the manufacture of compounded liquors shall be subject to excise tax unless the importer thereof is a holder of a Permit to Operate as importer of ethyl alcohol or ethanol or as a manufacturer of compounded liquors, as the case may be, duly issued by the BIR and has posted a surety bond, in addition to the importer's bond prescribed under Section 160 of the Philippine Tax Code;

In case of domestic sale of ethyl alcohol or ethanol by duly registered manufacturers thereof, otherwise known as distilleries, the sale and delivery of ethyl alcohol or ethanol directly to manufacturers of compounded liquors shall be subject to excise tax, unless a surety bond shall be posted by the distillery, in addition to the manufacturer's bond prescribed under Section 160 of the Philippine Tax Code. Moreover, the sale and delivery of ethyl alcohol or ethanol without the payment of the excise tax to be used as raw material in the manufacture of compounded liquors shall not be allowed unless the buyer thereof is a holder of a Permit to Operate as manufacturer of compounded liquors duly issued by the BIR;

The removal of ethyl alcohol or ethanol from distilleries for purposes of rectification shall be conditionally tax-exempt and the excise tax due on the rectified alcohol shall be paid by the rectifier pursuant to the provisions of Section 137 of the Philippine Tax Code and its implementing rules and regulations. In case the rectifier shall remove and deliver the rectified alcohol to manufacturers of compounded liquors, such removal shall not be subject to excise tax provided that a surety bond in an amount similar to that provided for distilleries shall have been posted by the rectifier;

The duly registered importer of ethyl alcohol or ethanol intended for resale shall be liable to the excise tax on sale and delivery thereof to persons or entity other than to manufacturers of compounded liquors;

All existing manufacturers of compounded liquors are now liable to pay the excise tax on every removal of compounded liquors from its place of production pursuant to R.A. No. 10351, and are required to post an initial manufacturer's bond prescribed under Section 160 of the Philippine Tax Code equivalent to the excise due on the total volume of compounded liquors that have been actually removed from the place of production in the immediately previous year of operation;

With respect to the tolling, bottling and other sub-contracting agreements prescribed under Section 21 of R.R. No. 03-2006, the owner of the alcohol products shall be the person liable to pay the excise tax before removal thereof from the place of production of the toller or sub-contractor; and

The excise tax that has already been paid on ethyl alcohol or ethanol pursuant to RMC No. 3-2013 shall not be entitled to tax credit/refund or shall not be deducted from the total excise tax due on compounded liquors.

RESEARCH AND DEVELOPMENT

The Company develops new products and regularly seeks to expand its existing product lines. The Company researches new processes and tests new equipment to maintain and improve the quality of its beverages. EDI has a research and development staff of approximately five people and also conducts extensive research and development for new products, line extensions for existing products and for improved production, quality control and packaging, as well as consumer preferences, habits and trends. The amount spent on research and development activities in percentage to total revenues in each of the last three years is minimal.

EMPLOYEES

The following table sets out the full-time employees of the Company as of December 31, 2013:

Officers	17
Managers	67
Supervisors and Rank and File	1,123
	<hr/>
	1,207
Total.	<hr/> <hr/>

The Group intends to hire additional employees if the present workforce becomes inadequate to handle operations.

RISKS ASSOCIATED WITH THE BUSINESS

A large majority of the Company's business activities and assets are based in the Philippines, which exposes the Company to risks associated with the country, including the performance of the Philippine economy.

Historically, the Company has derived a large majority of its revenues and operating profits from the Philippines and, as such, is highly dependent on the state of the Philippine economy. Demand for alcohol beverage products are all directly related to the strength of the Philippine economy (including its overall growth and income levels), the overall levels of business activity in the Philippines, as well as the amount of remittances received from overseas Filipino workers ("OFWs"). In addition, alcoholic beverage products are discretionary consumer products, and demand for these tends to decline during economic downturns when consumers' disposable income declines.

The Philippines has from time to time experienced political and social instability, including acts of political violence. Leadership change and shifting political alliances could alter national and local political dynamics and result in changes of policies and priorities. There is no guarantee that future events will not cause political instability in the Philippines. Such instability may disrupt the country and its economy.

The Company's businesses may be disrupted by natural disasters and outbreaks of infectious diseases or fears of such occurrences in Metro Manila or other parts of the Philippines.

It is not possible to predict the extent to which the Company's various businesses in general will be affected by any of the above occurrences or fears that such occurrences will take place, and there can be no assurance that any disruption to its businesses will not be protracted or that property will not be damaged, or that they could not materially and adversely affect their business, financial condition and results of operations. Further, any of the above occurrences may also destabilize the Philippine economy and business environment, which could also materially and adversely affect the Company's financial position and results of operations.

Demand for the Company's products may be adversely affected by changes in consumer preferences and tastes, product quality and reputation, or Company's reputation.

EDI currently sells four brands of alcoholic beverages, Emperador Brandy, Emperador Light, Emperador Deluxe, and The Bar beverages and cocktails. While it has cornered the biggest chunk of the market, maintaining the competitive position depends on its continued ability to offer products that appeal to consumers. Consumer preferences may shift due to a variety of factors, including changes in demographic and social trends, leisure activity patterns and a downturn in economic conditions, which may reduce consumers' willingness to purchase premium branded products. The Company believes that its reputation for product quality is one of its principal competitive advantages and, as a result, any such damage to its reputation for quality could have a material adverse effect on the Company's business, financial condition and results of operation. In addition, concerns about health effects due to negative publicity regarding alcohol consumption, negative dietary effects, regulatory action or any litigation or customer complaints against companies in the industry may have an adverse effect on profitability.

The prices of the Company's products have increased, and may continue to increase, because of the Sin Tax Reform Law of 2012 which may result in decreased demand for, and sales of, its products.

EDI's products are subject to excise taxes levied on alcohol and tobacco producers by the Government. The applicable duty on alcohol products will increase gradually, increasing the price of spirits by a specific tax of ₱20.00 per proof liter, plus an ad valorem tax equivalent to 15.0% of the net retail price per proof and with varying levels for other alcoholic drinks including wine and beer. By January 1, 2015, the ad valorem tax will be increased to 20.0% of the net retail price per proof while the specific tax of ₱20.00 per proof liter will be maintained. In addition, to prevent excise tax erosion from inflation, rates will be further increased by 4.0% each year effective 2016 for distilled spirits and 2018 for beer. Presently, EDI passes these increasing tax payments to consumers by increasing the prices of its products. However, there can be no assurance that EDI will, in the future, continue to be able to raise the prices of its products and pass on to its customers higher excise taxes, which could result in lower sales volume or lower margin. Consequently, the Company's sales, result of operations and financial condition could be materially and adversely affected.

The Company's operating results may be adversely affected by increased costs or shortages of raw materials, packaging materials or labor.

The raw materials that EDI uses for the production of its beverage products are largely commodities, such as molasses, distilled neutral spirit, brandy concentrate and flavorings which are subject to price volatility caused by changes in global and local supply and demand, weather conditions, agricultural uncertainty or governmental controls. If commodity price changes result in unexpected increases in raw materials cost or if the cost of packaging materials increase, EDI may not be able to increase its prices to offset these increased costs without suffering reduced volume, revenue and operating income. The Company may be adversely affected by shortages of such raw materials or packaging materials.

Similarly, the operating results could be adversely affected by labor or skill shortages or increased labor costs due to increased competition for employees, higher employee turnover or increased employee benefit costs. Success is dependent on the capability of its employees. There is no guarantee that the Company will continue to be able to recruit, retain and develop the capabilities that it requires to deliver its strategy, for example in relation to sales, marketing and innovation capability within markets or in its senior management.

The Company is subject to risks associated with growing its business through acquisitions, such as a failure to successfully integrate any acquired entity and its assets.

The Company intends to continue growing in part through inorganic means such as the recent acquisition of the distillery facility of Condis and certain assets in Spain, and the Company may continue to evaluate

growth opportunities through suitable acquisitions in the future. Growth through acquisitions involves business risks, including unforeseen contingent risks or latent business liabilities that may only become apparent after the acquisition is finalized, unsuccessful integration and management of the acquired entity with the Company, failure to retain key personnel and risks relating to management of a larger business, including diversion of management's attention from other on-going business concerns. If the Company is unable to manage these risks successfully, its results of operations and financial condition could be adversely affected.

Water is critical to the Company's operations and any shortage or contamination of its water supply source would adversely affect its operations.

The Company sources its water requirements for its beverage production from two deep wells located in its facility. The water then undergoes treatment at the Company's in-house water filtration facility to ensure its safety and suitability for beverage production. The Philippines has from time to time experienced drought conditions and may continue to experience drought, for example, caused by El Niño. If the Company experiences a shortage of water for any reason, including competition from other users, drought or contamination, its beverage production business could be materially and adversely affected.

The Company is effectively controlled by the Tan Family and depends on their continued services.

Through its direct interest in AGI, and in the companies that beneficially own shares in AGI and in AGI's subsidiaries, the Tan Family effectively controls the Company. Dr. Andrew Tan and his spouse, Mrs. Katherine Tan, both serve on AGI's and the Company's board of directors as Chairman and Treasurer, respectively. Their sons, Messrs. Kevin Andrew Tan and Kendrick Andrew Tan, are directors of EDI. These positions allow the Tan Family to control shareholder decisions and exercise significant control over board decisions in AGI and in each of its major subsidiaries such as the Company. They are also an integral part of the Company's success, and the expertise, experience and business relationships that would be lost should any such persons depart could be difficult to replace and may result in a decrease in the Company's operating efficiency and financial performance. The respective businesses or activities of other Tan Family-related companies currently do not compete with the Company's businesses or activities, but they may do so in the future.

Volatility in the value of the peso against the U.S. dollar and other currencies could adversely affect the Company's business.

The peso has recently depreciated in value as compared to the U.S. dollar. As of December 31, 2013, the peso has depreciated by 7.8% to P44.414 per U.S.\$1.00 from P41.192 per U.S.\$1.00 as at December 31, 2012. In the recent past, the peso had also been appreciating and the BSP may intervene in the foreign exchange market to curb the negative effects of a strong currency. Reduced risk appetite for emerging market assets could also result in a decline in value of the peso as investors move their portfolios out of emerging markets. Intervention in the currency markets as well as changes in demand for the peso could result in volatility in the value of the peso against the U.S. dollar and other currencies.

RISKS MANAGEMENT AND BUSINESS STRATEGY

Risks are integral part of business. Opportunity for advancement cannot be achieved without taking risks. This is why the Company and its subsidiaries adopted a policy whereby risks are identified before they cause significant trouble for the business. They carefully prepare structured/strategic plans to anticipate the inherent risks in their activities and set up methods to mitigate the effects of these risks. Risks are prioritized based on their impact to business, and probability of occurrence. There is a monitoring system that keeps track of the indicators and the actions/corrections undertaken. Feedbacks, both internal and external, are important for current and emerging risks.

The Group's risk management is coordinated with the Board of Directors and focuses on actively securing short-to medium-term cash flows by minimizing the exposure to financial markets. Long-term financial investments are managed to generate lasting returns. The Group does not actively engage in the trading of financial assets for speculative purposes.

2. PRINCIPAL PROPERTIES

EDI produces its alcoholic beverage products at two facilities in the vicinity of Santa Rosa, Laguna, Philippines. The Company's main facility in Santa Rosa, Laguna is being leased on an automatic annual renewal basis from Tradewind Estates, Inc. ("TEI"), which is a wholly-owned subsidiary of its affiliate, Alliance Global Brands, Inc. The lease agreement includes the use of the premises and the services of certain workers provided by TEI. The Laguna facility is located on high ground that is well protected from flooding. It is also located on what the Company considers to be one of the best sources of fresh water in the Philippines. The annex production facility at Laguna Technopark 1 in Biñan, Laguna (in close proximity to its main plant in Santa Rosa) was acquired from Diageo Philippines in May 2012. The acquisition increased the Company's production and technical capabilities in the Philippines and further boosted the Company's competitiveness in promoting 'Emperador' as a strong global brand. In addition, the Company installed high-speed bottling lines to replace one of the bottling lines previously used by Diageo plc. The purchase and the update of the annex bottling facility increased the Company's total bottling capacity by 33.0%.

In February 2013, EDI acquired from Condis a distillery plant in Nasugbu, Batangas. The acquisition included inventory of molasses and alcohol and delivery vehicles. Also in 2013, EDI's foreign subsidiary acquired vineyard lands in Spain.

The glass manufacturing plant at Canlubang Industrial Estate in Calamba, Laguna is being leased from AGI on an annual renewal basis.

3. LEGAL PROCEEDINGS

The Company may be subject to various legal proceedings and claims that arise in the ordinary course of business. As of to-date, the Company is not engaged in or subject to any material pending legal proceedings to which the Company or any of its subsidiaries or affiliates is a party or of which any of its property is the subject.

4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matter was submitted during the fourth quarter of 2013 to a vote of security holders. In September 2013, the Company submitted for approval by written assent of its stockholders the change in name from TrillionStars Holdings, Inc. to Emperador Inc., which approval was obtained on 19 September 2013.

PART II - OPERATIONAL AND FINANCIAL INFORMATION

5. MARKET FOR ISSUER'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

MARKET INFORMATION

The common shares of the Company are traded on the Philippine Stock Exchange ("PSE") under the symbol of EMP. The Company's common stock was first listed on the PSE on December 19, 2011. The closing price of the said shares on March 13, 2014 is Php12.00.

The following table sets out, for the periods indicated, the high and low sales price for the Company's common shares as reported on the PSE:

Year		First Quarter	Second Quarter	Third Quarter	Fourth Quarter
2012	High	4.20	3.86	4.20	14.18
	Low	3.30	3.50	3.53	3.83
2013	High	22.00	21.95	16.46	12.50
	Low	7.42	13.94	8.48	8.75
2014	High	12.32			
	Low	11.40			

SHAREHOLDERS

As of March 31, 2014, the Company has 11 shareholders of record and 196 nominees. The following table sets forth the shareholders of the Company with their direct holdings as of March 31, 2014:

Rank	Name of Stockholder	NO. Of Shares Subscribed	% OF OWNER SHIP
1	Alliance Global Group, Inc. ²	11,700,000,000	78.00%
2	PCD Nominee Corporation (Non-Filipino)	1,588,256,529	10.59%
3	Dew Dreams International Ltd. ¹	720,000,000	4.80%
4	Shiok Success International Ltd. ¹	711,764,995	4.75%
5	PCD Nominee Corporation (Filipino)	273,472,276	1.82%
6	Immortelle Jolly Global Inc.	3,285,000	0.02%
7	Energise Capital Ltd.	3,200,000	0.02%
8	John T. Lao	20,000	0.0001%
9	Stephen G. Soliven	1,000	0.00001%
10	Julius Victor Emmanuel D. Sanvictores	100	0.000001%
11	Joseph A. Sy and/or Evangeline T. Sy	100	0.000001%
	TOTAL	15,000,000,000	100%

¹AGI, as ultimate parent, beneficially owns these shares. ²AGI shares include the qualifying shares of the 7 directors.

DIVIDEND POLICY

Under Philippine law, a corporation may generally declare dividends if it has unrestricted retained earnings. Unrestricted retained earnings represent the undistributed earnings of the corporation which have not been allocated for any managerial, contractual or legal purposes and which are free for distribution to the shareholders as dividends. If declared by the corporation's board of directors, a corporation may pay dividends in cash, by the distribution of property, by the issuance of shares or by a combination of the three, as the board of directors shall determine and subject to the approval of the SEC, as may be required by law. A cash dividend declaration does not require any further approval from shareholders. Stock dividends can be issued with the approval of shareholders representing at least two-thirds of the issued and outstanding stock voting at a shareholders' meeting duly called for the purpose. The board of directors may not declare dividends which will impair its capital.

EDI declared cash dividends for its shares in the amount of P0.82, P0.80, P0.57, and P0.30 per Share for the years ended December 31, 2010, 2011, 2012, and 2013, respectively.

The Company may declare dividends when there are unrestricted earnings available, but any such declaration will take into consideration a number of factors including restrictions that may be imposed by current and prospective financial covenants, projected levels of operating results of its businesses/subsidiaries, working capital needs and long-term capital expenditures of its businesses/subsidiaries; and regulatory requirements on dividend payments, among others.

RECENT SALES OF UNREGISTERED OR EXEMPT SECURITIES, INCLUDING RECENT ISSUANCE OF SECURITIES CONSTITUTING AN EXEMPT TRANSACTION

In August 2013, the Company and AGI, among other investors, have agreed to subscribe to an aggregate of up to 15,000,000,000 shares of the Company at par value of Php1.00 per share to be issued out of an increase in capital stock, which increase was approved by the SEC on September 5, 2013. The aforesaid subscription to the capital increase is exempt from registration with the SEC, it being an exempt transaction by express provision of Section 10.1 (i) of Republic Act No. 8799, otherwise known as the Securities Regulation Code.

In September 2013, the Company together with AGI as the Selling Shareholder offered for sale 1,800,000,000 existing common shares (the "Offer Shares") at Php8.98 per Offer Share (the "Offer Price"). The Offer Shares were offered to persons outside the United States in reliance on Regulation S under the United States Securities Act of 1993, as amended. The Offer Shares are being offered in the Philippines to qualified buyers in reliance on Section 10.1(I) of Republic Act No. 8799, otherwise known as the Securities Regulation Code of the Philippines, as amended. Macquarie Capital (Singapore) Pte. Limited acted as the Sole Global Coordinator, Sole Bookrunner and Lead Manager. The Selling Shareholder agreed to remit to the Company an amount equal to a portion of the proceeds from the sale of 1,431,764,005 Offer Shares sold by the Selling Shareholder at the Offer Price. The remainder of the proceeds from the offer was retained by the Selling Shareholder.

6. MANAGEMENT'S DISCUSSION AND ANALYSIS

KEY PERFORMANCE INDICATORS

<i>In Million Pesos</i>	2013	2012	2011	% Growth	
				2013	2012
Revenues	₱ 29,865	₱ 23,594	₱ 17,355	27	36
Net profit	₱ 5,831	₱ 5,000	₱ 2,305	17	117
Total assets	₱ 35,225	₱ 12,833	₱ 8,665	174	48
Total current assets	₱ 30,787	₱ 10,236	₱ 7,270	201	41
Total current liabilities	₱ 4,249	₱ 4,296	₱ 4,105	-1	5
Gross profit margin %	32.48	36.19	26.15		
Net profit rate %	19.52	21.19	13.28		
Return on investment %	16.55	38.96	26.60		
Current ratio	7.25x	2.38x	1.77x		
Quick ratio	6.37x	1.59x	1.38x		

- Revenue growth – measures the percentage change in revenues over a designated period of time.
- Net profit growth – measures the percentage change in net profit over a designated period of time.

- Gross profit margin – computed as percentage of gross profit [which is sales less cost of sales] to sales – gives indication of pricing, cost structure and production efficiency.
- Net profit rate– computed as percentage of net profit to revenues - measures the operating efficiency and success of maintaining satisfactory control of costs
- Return on investment [or capital employed] – the ratio of net profit to total assets - measures the degree of efficiency in the use of resources to generate net income
- Current ratio – computed as current assets divided by current liabilities – measures the ability of the business to meet its current obligations. To measure immediate liquidity, quick assets [cash, marketable securities, accounts receivables] is divided by current liabilities.

RESULTS OF OPERATIONS

Year Ended December 31, 2013 Compared With Year Ended December 31, 2012

Revenues

Total revenues increased by 26.6% to P29,864.7 million in the year ended December 31, 2013 from P23,594.3 million in the year ended December 31, 2012 primarily due to increase in volume and prices. There was an increase in the Company's selling prices for its products to cushion the effect of the new excise tax which took effect at the start of the year pursuant to R.A. No. 10351. Sales of the Company's products increased from 31.2 million cases to 33.1 million cases in 2013, reflecting an increase of 6.1%. In addition, the Company's introduction of Emperador Deluxe in March 2013 also contributed to the increase in revenues.

Other revenues increased by 60.8% to P1,257.7 million from P782.0 million due to higher foreign currency gains and interest income booked in 2013. Also, there was P292.5 million fair value gain in 2012 that reversed in 2013.

Costs and Expenses

Total costs and expenses increased by 31.0% to P21,959.6 million in the year ended December 31, 2013 from P16,764.9 million in the year ended December 31, 2012 primarily due to the new excise tax on alcoholic beverages. In addition, the acquisition of a production facility from Diageo Philippines in May 2012 resulted in an increase in depreciation for the year ended December 31, 2013.

Cost of Goods Sold

Cost of goods sold increased by 32.7% to P19,316.8 million in the year ended December 31, 2013 from P14,556.2 million in the year ended December 31, 2012 primarily as a result of the new excise tax on alcoholic beverages. The higher sales volume required more new bottles, which are costly than recycled ones.

Gross Profit

As a result, gross profit increased by 12.5% to P9,290.2 million in the year ended December 31, 2013 from P8,256.1 million in the year ended December 31, 2012, reflecting a gross profit margin of 33%.

Selling and distribution expenses

Selling and distribution expenses increased by 5.8% to P2,097.8 million in the year ended December 31, 2013 from P1,983.6 million in the year ended December 31, 2012 primarily due to an increase in outside services, freight and taxes and licenses.

General and administrative expenses

General and administrative expenses increased by 29.1% to P281.9 million in the year ended December 31, 2013 from P218.4 million in the year ended December 31, 2012 primarily due to an increase in salaries and outside services.

Other Charges

Other charges increased to P263.1 million in the year ended December 31, 2013 from P6.7 million in the year ended December 31, 2012 primarily due to fair value losses the Company booked on its forward exchange contracts in 2013. Also included in this account are the accumulated losses of the acquired company (TSI) amounting to P42.0 million at the time of acquisition.

Profit before Tax

As a result of the foregoing, profit before tax increased by 15.7% to P7,905.1 million in the year ended December 31, 2013 from P6,829.4 million in the year ended December 31, 2012.

Tax Expense

Tax expense increased by 13.4% to P2,074.3 million in the year ended December 31, 2013 from P1,829.9 million in the year ended December 31, 2012 primarily as a result of the increased revenues recorded by the Company for the period.

Net Profit

As a result of the foregoing, net profit increased by 16.6% to P5,830.8 million in the year ended December 31, 2013 from P4,999.6 million in the year ended December 31, 2012.

Year Ended December 31, 2012 Compared With Year Ended December 31, 2011

Revenues

Total revenues increased by 36.0% to P23,594.3 million in the year ended December 31, 2012 from P17,355.0 million in the year ended December 31, 2011 primarily due to higher sales volumes and generally higher prices during the year. Sales of the Company's products increased from 23.4 million cases to 31.2 million cases in 2012, reflecting an increase of 33.3%.

Costs and Expenses

Total costs and expenses increased by 18.2% to P16,764.9 million in the year ended December 31, 2012 from P14,184.4 million in the year ended December 31, 2011 primarily due to various costs associated with increasing production.

Cost of Goods Sold

Cost of goods sold increased by 16.0% to P14,556.2 million in the year ended December 31, 2012 from P12,550.1 million in the year ended December 31, 2011 primarily due to the Company's higher sales volumes, and was partially offset by cost efficiencies derived from the Company's use of more recycled bottles.

Gross Profit

As a result, gross profit increased by 85.8% to P8,256.1 million in year ended December 31, 2012 from P4,444.6 million in the year ended December 31, 2011, reflecting a gross profit margin of 36.2%.

Selling and distribution expenses

Selling and distribution expenses increased by 32.5% to P1,983.6 million in the year ended December 31, 2012 from P1,496.8 million in the year ended December 31, 2011 primarily due to higher freight expenses resulting from the Company's increased sales volume, as well as higher merchandising fees, depreciation and fuel charges.

General and administrative expenses

General and administrative expenses increased by 194.5% to P218.4 million in the year ended December 31, 2012 from P74.1 million in the year ended December 31, 2011 primarily due to higher tax expenses incurred by the Company resulting from the acquisition of Diageo's production plant.

Profit before Tax

As a result of the foregoing, profit before tax increased by 115.4% to P6,829.4 million in the year ended December 31, 2012 from P3,170.6 million in the year ended December 31, 2011.

Tax Expense

Tax expense increased by 111.4% to P1,829.9 million in the year ended December 31, 2012 from P865.5 million in the year ended December 31, 2011 in line with the increase in the Company's profit before tax.

Net Profit

As a result of the foregoing, net profit increased by 116.9% to P4,999.6 million in the year ended December 31, 2012 from P2,305.1 million in the year ended December 31, 2011.

FINANCIAL CONDITION

Total assets grew by 174.5% to P35,225.4 million from P12,833.5 million as of December 31, 2013 and December 31, 2012, respectively. The Group is strongly liquid with current assets exceeding current liabilities by 7.2 times. Working capital or liquidity was sourced internally from operations and capital stock issuances. Current assets amounted to P30,787.3 million while current liabilities amounted to P4,249.1 million at yearend 2013. The Group has no long-term debt.

Cash and cash equivalents increased significantly by 416.3% or P19,383.7 million in 2013, primarily due to the recent subscriptions in capital stock, both in EMP and EDI level. AGI, in particular, remitted an additional subscription price of P11.2 billion to the Company and fully paid its P7.5 billion subscriptions to EDI shares. The Group ended with P24,040.2 million in its coffers.

Trade and other receivables grew by 51.9% or P1,034.2 million, primarily due to the increase in sales and advances to contractors for the construction of a new distillery plant in Batangas.

Financial instruments are marked to market resulting in fair value loss in 2013 as compared to fair value gain in 2012. These are reported as financial liability of P38.6 million and financial asset of P170.1 million at end-December 2013 and 2012, respectively.

Inventories went up by 5.6% or P188.4 million, because of the inventory at the distillery (acquired in 2013).

Prepayments and other current assets grew by 142.5% or P114.6 million, due to prepaid excise tax on alcohol products and prepaid rent, insurance and security deposits on the new sales offices opened from a year ago.

Property, plant and equipment went up by 86.3% or P1,737.4 million, due to acquisition of the distillery plant from Condis and vineyards in Spain. Also, a bigger warehouse is being constructed in the main bottling plant and new logistics equipments were added during the period. Construction of a new distillery plant is in progress.

Other non-current assets increased by 120.6% or P177.9 million, due to additional deferred input vat.

Trade and other payables decreased by 4.7% or P182.3 million, due to settlement of advances from related parties. Income tax payable increased by 21.8% or P96.6 million, due to higher taxable profit.

The changes in capital accounts, i.e. capital stock, additional paid-in capital, and equity reserves, are shown in the statement of changes in equity. The significant increase is attributed to new subscriptions during the year from AGI and other investors.

Accumulated translation adjustments refer to the resulting difference in the translation of the foreign subsidiary's financial statements to Philippine pesos. Monetary assets and liabilities are translated at the closing rate, non-monetary ones at historical cost, and income and expenses at average exchange rates.

With P24,040.2 million cash and cash equivalents in its coffers, the Group is ready to embark on its expansion and investment program.

LIQUIDITY AND CAPITAL RESOURCES

In 2011, 2012, 2013, the Company's principal sources of liquidity were internally generated funds from its operations. There is also an equity offering in 2013 that further increased cash and cash equivalents to P24,040.2 million as of December 31, 2013 from P4,656.4 million as of December 31, 2012. The Company expects to meet its working capital and investment requirements for the ensuing year primarily from these available funds, in addition to cash flows from operations. It may also from time to time seek other sources of funding, if necessary, which may include debt or equity financings, including peso-denominated loans from Philippine banks, depending on its financing needs and market conditions.

OTHER MATTERS

Except for what have been noted:

There were no other known material events subsequent to the end of the interim period that would have a material impact in the interim period.

There are no other known trends or demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in the Group's liquidity increasing or decreasing in any material way. The Group does not have nor anticipate having any cash flow or liquidity problems. The Group is not in default or breach of any note, lease or other indebtedness or financing arrangement requiring it to make payments.

There are no other known events that will trigger direct or contingent financial obligation that is currently considered material to the Group, including any default or acceleration of an obligation. There are no other material off-balance sheet transactions, arrangements, obligations, and other relationships with unconsolidated entities or other persons created during the reporting period.

There are no other known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations. There are also no known events that will cause material change in the relationship between costs and revenues.

There are no other significant elements of income or loss that did not arise from continuing operations.

There were no other material issuances, repurchases or repayments of debt and equity securities.

The business has no seasonal aspects that had a material effect on the financial condition and results of operations of the Group.

7. FINANCIAL STATEMENTS

The audited consolidated financial statements, together with Statement of Management's Responsibility and Auditors' Report, and supplementary schedules are attached and filed herewith.

The Company's acquisition of EDI is accounted for similar to a reverse acquisition of a non-operating shell company, wherein the legal subsidiary, which is EDI, is deemed as the acquirer and the legal parent, which is the Company, is deemed as the acquired. The consolidated financial statements, thus, represent continuation of the consolidated financial statements of EDI and its subsidiaries, except for the capital structure.

The consolidated financial statements have been prepared in compliance with the Philippine Financial Reporting Standards (PFRS), on the historical cost basis except for the measurement of certain financial assets and liabilities. The preparation of the consolidated financial statements in compliance with PFRS requires management to make judgments, estimates and assumptions that affect the amounts reported in the financial statements and related notes. The estimation and judgments are based upon management's evaluation of relevant facts and circumstances of the financial statements. Actual results may ultimately vary from those estimates.

8. INFORMATION ON INDEPENDENT ACCOUNTANT AND OTHER RELATED MATTERS

EXTERNAL AUDIT FEES AND SERVICES

Audit and audit-related services

Punongbayan&Araullo ("P&A") audited the Company's consolidated financial statements for the years 2011, 2012 and 2013. In compliance with SEC Rule 68 paragraph 3 (b) (iv) (Rotation of External Auditors), and as adopted by the Company, external auditors or engagement partners are rotated or changed every five years. The lead engagement partner for 2012 and 2013 is Ms. Mailene S. Bisnar.

The combined fees billed by P&A for the audit of the 2012 annual financial statements of EDI and those of its subsidiaries totaled P2,005,000, excluding out-of-pocket expenses. For the audit of the 2013 annual financial statements, the fees billed by P&A to the Company and its subsidiaries totaled P2,682,000, excluding out-of-pocket expenses. The services are those normally provided in connection with statutory and regulatory filings or engagements.

Tax fees and all other fees

In 2013, P&A billed P5,350,000 for services rendered in connection with the offering of the Company's shares. The services included the audit of the consolidated financial statements for the three years ended December 31, 2012 and the review of interim consolidated financial statements as of June 30, 2013. (Please note that the consolidation is accounted as a reverse acquisition.)

There were no separate tax fees billed and no other products and services provided by P&A for the last two fiscal years.

CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

P&A issued an unqualified opinion on the consolidated financial statements. There are no disagreements with them on any matter of accounting principles or practices, financial statement disclosures, and auditing scope or procedure which, if not resolved would have caused the auditors to make reference thereto in its reports.

PART III - CONTROL AND COMPENSATION INFORMATION

9. DIRECTORS AND EXECUTIVE OFFICERS OF THE ISSUER

The overall management and supervision of the Company is undertaken by the Board of Directors ("Board"). Currently, the Board consists of seven members, of which two are independent directors. All of the directors were elected at the Company's special stockholders meeting on August 28, 2013 and will hold office until their successors have been duly elected and qualified.

The table below sets forth each member of the Company's Board as of March 31, 2014:

Name	Age	Citizenship	Position
Andrew L. Tan	63	Filipino	Chairman
Winston S. Co	55	Filipino	Director
Katherine L. Tan	61	Filipino	Director

SIGNIFICANT EMPLOYEES

While the Company values its workforce, the business of the Company is not highly dependent on the services of personnel outside of Senior Management.

FAMILY RELATIONSHIPS

Chairman Andrew L. Tan is married to Director and Treasurer Katherine L. Tan while their son, Kendrick Andrew L. Tan, is also a Director. Kendrick is currently serving as director of Anglo Watsons Glass, Inc. and Corporate Secretary of EDI.

INVOLVEMENT IN CERTAIN LEGAL PROCEEDINGS

The Company is not aware of the occurrence during the past five (5) years up to the date hereof of any of the following events that are material to an evaluation of the ability or integrity of any director, any nominee for election as director, or executive officer:

1. Any bankruptcy petition filed by or against any business of a director, nominee for election as director, or executive officer who was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time;
2. Any conviction by final judgment in a criminal proceeding, domestic or foreign, or a pending criminal proceeding, domestic or foreign, excluding traffic violations and other minor offenses;
3. Any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, domestic or foreign, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities, commodities or banking activities; and
4. Being found by a domestic or foreign court of competent jurisdiction (in a civil action), the Commission or comparable foreign body, or domestic or foreign exchange or other organized trading market or self-regulatory organization, to have violated a securities or commodities law of regulation, and the judgment has not been reversed, suspended, or vacated.

10. EXECUTIVE COMPENSATION

SUMMARY COMPENSATION TABLE

The following table identifies the Company's Chief Executive Officer and the four most highly compensated executive officers and summarize their aggregate annual compensation in 2012 and 2013 and the estimated aggregate compensation for 2014. Such compensation is received from EDI and none from the Company.

	Name and principal position	Year	Salary (P) '000	Bonus (P)	Other Annual Compensation
CEO	Winston S. Co, President				
A	Katherine L. Tan, Treasurer				
B	Kendrick Andrew L. Tan, Executive Director				
C	Edwin Jaranilla, Plant Manager				
D	Eleizer S. Joaquin, Vice President for Sales and Marketing				
	Total President and four most highly compensated executive officer	2012	14,235		None
		2013	16,159		None
		2014	18,525		None
E	All other officers and named directors as a group	2012	0		
		2013	0		

COMPENSATION OF DIRECTORS

The Company's By-Laws stipulates that, except for reasonable per diem, directors, as such, are entitled to receive only such compensation as may be granted to them upon the recommendation of the Compensation and Remuneration Committee and subsequent approval by vote of stockholders representing at least a majority of outstanding capital stock at a regular or special meeting of stockholders. In no case shall the total yearly compensation of directors, as such, exceed 10% of the net income before tax of the Corporation for the preceding year.

EMPLOYMENT CONTRACTS AND TERMINATION OF EMPLOYMENT AND CHANGE-IN-CONTROL ARRANGEMENT

There are no employment contract between the Company and a named executive officer; and no compensatory plan or arrangement, including payments to be received from the Company, with respect to a named executive officer, that results or will result from the resignation, retirement or any other termination of such executive's employment with the Company and its subsidiaries or from a change-in-control of the Company or a change in the named executive officer's responsibilities following a change-in-control and amount involved, including all periodic payments or installments, exceeds P2.5 million.

OUTSTANDING WARRANTS AND OPTION

The Group does not have warrants or options, and as such there are no warrants or options held by the CEO, the named executive officers, and all officers and directors.

11. SECURITY OWNERSHIP OF CERTAIN RECORD AND BENEFICIAL OWNERS AND MANAGEMENT

STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR CONSOLIDATED FINANCIAL STATEMENTS

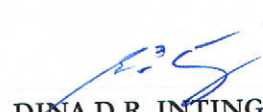

The management of *Emperador Inc. (formerly TrillionStars Holdings, Inc., formerly Touch Solutions, Inc.)* is responsible for the preparation and fair presentation of the consolidated financial statements as at December 31, 2013 and 2012 and for each of the three years in the period ended December 31, 2013, including the additional components attached therein, in accordance with the Philippine Financial Reporting Standards. This responsibility includes designing and implementing internal controls relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error, selecting and applying appropriate accounting policies, and making accounting estimates that are reasonable in the circumstances.

The Board of Directors reviews and approves the consolidated financial statements, including the additional components attached therein, and submits the same to the stockholders.

Punongbayan & Araullo, the independent auditors appointed by the stockholders, has examined the consolidated financial statements of the Company and its subsidiaries in accordance with Philippine Standards on Auditing and, in its report to the Board of Directors and stockholders, has expressed its opinion on the fairness of presentation upon completion of such examination.

Report of Independent Auditors

The Board of Directors and Stockholders
Emperador Inc. and Subsidiaries
(Formerly TrillionStars Holdings, Inc.)
(Formerly Touch Solutions, Inc.)
(A Subsidiary of Alliance Global Group, Inc.)
10th Floor, Liberty Center
104 H.V. dela Costa Street
Salcedo Village, Makati City

We have audited the accompanying consolidated financial statements of Emperador Inc. and Subsidiaries, which comprise the consolidated statements of financial position as at December 31, 2013 and 2012, and the consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for each of the three years in the period ended December 31, 2013, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Philippine Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Philippine Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of Emperador Inc. and Subsidiaries as at December 31, 2013 and 2012, and their consolidated financial performance and their consolidated cash flows for each of the three years in the period ended December 31, 2013 in accordance with Philippine Financial Reporting Standards.

EMPERADOR INC. AND SUBSIDIARIES
(Formerly TrillionStars Holdings, Inc.)
(Formerly Touch Solutions, Inc.)
(A Subsidiary of Alliance Global Group, Inc.)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2013, 2012 AND 2011
(Amounts in Philippine Pesos)

1. CORPORATE INFORMATION

1.1 Change in Corporate Name

Emperador Inc. (EMP or the Parent Company or the Company) was incorporated under the name of Touch Solutions, Inc. (TSI) on November 26, 2001. On June 19, 2013, the Board of Directors (BOD) approved the change in corporate name to TrillionStars Holdings, Inc. This was ratified by the stockholders and approved by the Philippine Securities and Exchange Commission (SEC) on August 27 and September 5, 2013, respectively.

On August 28, September 16 and September 27, 2013, the BOD, stockholders by written assent, and SEC, respectively, approved the change in corporate name to Emperador Inc.

1.2 Corporate Update

The Parent Company was incorporated in the Philippines and registered with SEC, primarily as an information-technology (IT) services and products provider. On March 1, April 10 and July 31, 2013, the BOD, stockholders and SEC, respectively, approved the change in the primary purpose of the Parent Company to become a holding company. Consequently, the Parent Company disposed of its IT-related net assets in April 2013 (see Note 1.4).

On June 19, August 27 and September 5, 2013, the BOD, stockholders and SEC, respectively, approved the increase in authorized capital stock to 20 billion shares from 100 million shares (see Note 19).

On August 28, 2013, Alliance Global Group, Inc. (AGI or the Ultimate Parent Company) obtained a controlling interest in EMP through AGI's subscription to EMP's new capital stock. As part of this transaction, AGI transferred to EMP all the issued and outstanding shares of Emperador Distillers, Inc. (EDI) owned by AGI (see Note 1.3).

AGI is a domestic holding company with diversified investments in real estate, food and beverage manufacturing, quick service restaurants and tourism-oriented businesses.

The common shares of the Parent Company and AGI were first listed in the Philippine Stock Exchange (PSE) on December 19, 2011 and April 19, 1999, respectively.

The registered principal office of EMP is located at 10th floor, Liberty Center, 104 H.V. dela Costa Street, Salcedo Village, Makati City. The business address of EMP and the registered office of AGI are located at 7th Floor, 1880 Eastwood Avenue, Eastwood City CyberPark, 188 E. Rodriguez, Jr. Avenue, Bagumbayan, Quezon City.

1.3 Acquisition of EDI by the Parent Company

On August 28, 2013, the Parent Company acquired 100% ownership interest in EDI from AGI, as a condition to AGI's subscription to EMP shares [see Notes 1.2 and 2.3(c)]. EDI was incorporated in the Philippines on June 6, 2003 to primarily engage in the manufacturing and trading of brandy, wine or other similar alcoholic beverage products. EDI's registered office which is also its principal place of business, is located at the 7th Floor, 1880 Eastwood Avenue, Eastwood City CyberPark, 188 E. Rodriguez, Jr. Avenue, Bagumbayan, Quezon City.

EDI currently has two principal brands, namely, Emperador brandy (in three variants, namely Brandy, Light brandy and Deluxe) and The BaR flavored alcoholic beverage (in gin, vodka and tequila). EDI and its subsidiaries (collectively referred to as the "EDI Group") are all engaged in businesses related to the main business of EDI. The liquor production business was acquired in 2007 from the Andrew Tan family who started it in 1979. EDI's subsidiaries are as follows:

Name of Subsidiaries	Explanatory Notes	Percentage of Ownership	
		2013	2012
Anglo Watsons Glass, Inc. (AWGI)	(a)	100%	100%
The Bar Beverage, Inc. (The Bar)	(b)	100%	100%
Emperador International, Ltd. (EIL)	(c)	100%	100%

Explanatory Notes:

- (a) EDI acquired 100% ownership from AGI in 2012. Since EDI and AWGI are under the common control of AGI, the acquisition was accounted for under the pooling-of-interest method of accounting [see Note 2.3 (b)]. EDI opted not to restate the financial information in the consolidated financial statements for periods prior to the date of the business combination. AWGI is a domestic corporation presently engaged in flint glass container manufacturing and primarily supplies EDI's bottle requirements.

AWGI's registered office is located in 7th Floor, 1880 Eastwood Avenue, Eastwood City CyberPark, 188 E. Rodriguez, Jr. Avenue, Bagumbayan, Quezon City. AWGI's glass manufacturing plant is located in Silangan Industrial Estates, Canlubang, Laguna.

- (b) Incorporated to carry out a general and commercial business of manufacturing, making, processing, importing, exporting, buying, and selling any and all kinds of alcohol, wine or liquor products.

The Bar's registered office is located in 7th Floor, 1880 Eastwood Avenue, Eastwood City CyberPark, 188 E. Rodriguez, Jr. Avenue, Bagumbayan, Quezon City.

- (c) A foreign entity incorporated in the British Virgin Islands primarily to handle the international sales, marketing and merchandising of EDI's products. EIL is presently operating as an investment holding entity.

EIL's registered office and principal place of business is at the offices of Portcullis TrustNet (BVI) Limited, which is currently located at Portcullis Trust Net Chambers, 4th Floor Skeleton Building, 3076 Drake's Highway, Road Town, Tortola, British Virgin Islands.

The acquisition of EDI by the Parent Company was effectively an acquisition of a group of assets because the Parent Company does not constitute a business as defined under Philippine Financial Reporting Standard (PFRS) 3, *Business Combinations*. The consolidated financial statements of the Parent Company and EDI and its subsidiaries (collectively referred to as the “Group”) represent the continuation of the consolidated financial statements of EDI and its subsidiaries (collectively referred to as the “EDI Group”). The comparative information presented in these consolidated financial statements is that of the EDI Group and not that originally presented in the previous consolidated financial statements of the Parent Company. The comparative information is also adjusted retroactively to reflect the legal capital of the Parent Company [see Note 2.3(c)].

1.4 Discontinuance of IT operations

On March 1 and April 10, 2013, the Company’s BOD and stockholders, respectively, approved the transfer of all or substantially all the assets and liabilities related to the IT business. In April 2013, the Parent Company (then named TSI) disposed of its investment in Sagesoft Solutions, Inc. (SSI) to TSI’s minority stockholders and transferred and conveyed its IT-related net assets to SSI (see Note 1.2). SSI is engaged in establishing and operating IT services and products. SSI was a wholly owned subsidiary of the Parent Company as of March 31, 2013.

The following are the book value of the assets and liabilities transferred to SSI.

Trade and other receivables	P 38,139,036
Trade and other payables	(25,818,055)
Cash and cash equivalents	11,637,576
Property and equipment	4,215,506
Prepayments and other current assets	1,151,003
Retirement benefit obligation	(<u>675,739</u>)
Net assets	<u>P 28,649,327</u>

1.5 Approval of the Consolidated Financial Statements

The consolidated financial statements of the Group as of and for the year ended December 31, 2013 (including the comparatives for the year ended December 31, 2012 and 2011) were authorized for issue by the BOD on March 26, 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been used in the preparation of these consolidated financial statements are summarized below. The policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of Preparation of Consolidated Financial Statements

(a) Statement of Compliance with Philippine Financial Reporting Standards

The consolidated financial statements of the Group have been prepared in accordance with Philippine Financial Reporting Standards (PFRS). PFRS are adopted by the Financial Reporting Standards Council from the pronouncements issued by the International Accounting Standards Board (IASB).

The consolidated financial statements have been prepared using the measurement bases specified by PFRS for each type of asset, liability, income and expense. The measurement bases are more fully described in the accounting policies that follow.

(b) *Presentation of Consolidated Financial Statements*

The consolidated financial statements are presented in accordance with Philippine Accounting Standard (PAS) 1, *Presentation of Financial Statements*. The Group presents all items of income and expenses in a single statement of comprehensive income.

The Group presents a third statement of financial position as at the beginning of the preceding period when it applies an accounting policy retrospectively, or makes a retrospective restatement or reclassification of items that has a material effect on the information in the statement of financial position at the beginning on the preceding period. The related notes to the third statement of financial position are not required to be disclosed.

The Group's adoption of PAS 19 (Revised), *Employee Benefits*, resulted in retrospective restatements on certain accounts in the comparative consolidated financial statements for December 31, 2012 and in the corresponding figures as of January 1, 2012 [see Note 2.2(a)(ii)]. Accordingly, the Group presents a third consolidated statement of financial position as of January 1, 2012 without the related notes, except for the disclosures required under PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors*. Furthermore, certain accounts in the 2012 and 2011 consolidated statements of comprehensive income were reclassified to conform to the current year presentation, which did not result in a material impact on the Group's consolidated financial statements.

(c) *Functional and Presentation Currency*

These consolidated financial statements are presented in Philippine pesos, the Group's functional and presentation currency, and all values represent absolute amounts except when otherwise indicated.

Items included in the consolidated financial statements of the Group are measured using its functional currency. Functional currency is the currency of the primary economic environment in which the Group operates.

2.2 Adoption of New and Amended PFRS

(a) *Effective in 2013 that are Relevant to the Group*

In 2013, the Group adopted the following new PFRS, revisions, amendments and improvements thereto that are relevant to the Group and effective for consolidated financial statements for the annual period beginning on or after July 1, 2012 or January 1, 2013:

PAS 1 (Amendment)	:	Presentation of Financial Statements – Presentation of Items of Other Comprehensive Income
PAS 19 (Revised)	:	Employee Benefits

PFRS 7 (Amendment)	:	Financial Instruments: Disclosures – Offsetting Financial Assets and Financial Liabilities
PFRS 10	:	Consolidated Financial Statements
PFRS 12	:	Disclosures of Interests in Other Entities
PAS 27 (Revised)	:	Separate Financial Statements
PFRS 10 and 12 (Amendments)	:	Amendments to PFRS 10 and 12 Transition Guidance to PFRS 10 and 12
PFRS 13	:	Fair Value Measurement
2009-2011 Annual Improvements		
PAS 1 (Amendment)	:	Presentation of Financial Statements – Clarification of the Requirements for Comparative Information
PAS 16 (Amendment)	:	Property, Plant and Equipment – Classification of Servicing Equipment
PAS 32 (Amendment)	:	Financial Instruments – Presentation – Tax Effects of Distribution to Holders of Equity Instruments
PAS 34 (Amendment)	:	Interim Financial Reporting – Interim Financial Reporting and Segment Information for Total Assets and Liabilities

Discussed below are the relevant information about these new, revised and amended standards.

- (i) PAS 1 (Amendment), *Presentation of Financial Statements – Presentation of Items of Other Comprehensive Income* (effective from July 1, 2012). The amendment requires an entity to group items presented in other comprehensive income into those that, in accordance with other PFRS: (a) will not be reclassified subsequently to profit or loss; and, (b) will be reclassified subsequently to profit or loss when specific conditions are met. The amendment has been applied retrospectively; hence, the presentation of other comprehensive income has been modified to reflect the changes. This amendment affected presentation aspect only and had no significant impact on the Group's consolidated statement of financial position and consolidated statement of comprehensive income.
- (ii) PAS 19 (Revised), *Employee Benefits* (effective from January 1, 2013). The revised standard made a number of changes to the accounting for employee benefits. The most significant changes relate to defined benefit plan as follows:
 - eliminates the corridor approach and requires the recognition of remeasurements (including actuarial gains and losses) arising in the reporting period in other comprehensive income;

- changes the measurement and presentation of certain components of the defined benefit cost. The net amount in profit or loss is affected by the removal of the expected return on plan assets and interest cost components and their replacement by a net interest expense or income based on the net defined benefit liability or asset; and,
- enhances disclosure requirements, including information about the characteristics of defined benefit plans and the risks that entities are exposed to through participation in those plans.

The Group has applied PAS 19 (Revised) retrospectively in accordance with its transitional provisions. Consequently, it restated the comparative consolidated financial statements for December 31, 2012 and the corresponding figures as of January 1, 2012. The effect of the restatement on the affected asset, liability and equity components is shown below.

		December 31, 2012		
		As Previously Reported	Effect of Adoption of PAS 19 (Revised)	As Restated
<i>Change in asset and liability:</i>				
Deferred tax asset	P	16,470,969	P 3,819,993	P 20,290,962
Retirement benefit obligation	(41,391,565)	(12,733,312)	(54,124,877)
Net decrease in equity			(P 8,913,319)	
<i>Changes in components of equity:</i>				
Retained earnings	P	2,495,610,946	P 558,638	P 2,496,169,584
Revaluation reserves	-		(9,471,957)	(9,471,957)
Net decrease in equity			(P 8,913,319)	
		January 1, 2012		
		As Previously Reported	Effect of Adoption of PAS 19 (Revised)	As Restated
<i>Change in asset and liability:</i>				
Deferred tax asset	P	6,256,502	P 1,563,682	P 7,820,184
Retirement benefit obligation	(12,298,123)	(5,212,273)	(17,510,396)
Net decrease in equity			(P 3,648,591)	
<i>Changes in components of equity:</i>				
Retained earnings	P	1,496,158,812	P 452,120	P 1,496,610,932
Revaluation reserves	-		(4,100,711)	(4,100,711)
Net decrease in equity			(P 3,648,591)	

The effects of the adoption of PAS 19 (Revised) on the consolidated statements of comprehensive income for the years ended December 31, 2012 and 2011 are shown below.

	2012		
	As Previously Reported	Effect of Adoption of PAS 19 (Revised)	As Restated
<i>Changes in profit or loss:</i>			
Tax expense	(P 1,829,835,371)	(P 43,266)	(P 1,829,878,637)
General and administrative expenses	(221,162,311)	2,794,955	(218,367,356)
Other charges	(4,072,108)	(<u>2,650,737</u>)	(6,722,845)
Net increase in net profit for the year		<u>P 100,952</u>	
<i>Changes in other comprehensive income:</i>			
Remeasurements of post-employment defined benefit plan – net of tax	P -	P 3,952,747	P 3,952,747

The adoption of PAS 19 (Revised) did not result in a change on the amount of other comprehensive income reported in the 2011 consolidated statement of comprehensive income as there were no actuarial gains or losses on remeasurements of retirement benefit obligation during the year.

	2011		
	As Previously Reported	Effect of Adoption of PAS 19 (Revised)	As Restated
<i>Changes in profit or loss:</i>			
Tax expense	(P 865,428,813)	(P 50,411)	(P 865,479,224)
General and administrative expenses	(75,375,789)	1,236,226	(74,139,563)
Other charges	(62,355,580)	(<u>1,068,190</u>)	(63,423,770)
Net increase in net profit for the year		<u>P 117,625</u>	

The adoption of PAS 19 (Revised) did not have a material impact on the Group's statements of cash flows for the years ended December 31, 2012 and 2011.

The adoption of PAS 19 (Revised) did not have a material impact on the Group's basic and diluted earnings per share.

- (iii) PFRS 7 (Amendment), *Financial Instruments: Disclosures – Offsetting Financial Assets and Financial Liabilities* (effective from January 1, 2013). The amendment requires qualitative and quantitative disclosures relating to gross and net amounts of recognized financial instruments that are set-off in accordance with PAS 32, *Financial Instruments: Presentation*. The amendment also requires disclosure of information about recognized financial instruments which are subject to enforceable master netting arrangements or similar agreements, even if they are not set-off in the statement of financial position, including those which do not meet some or all of the offsetting criteria under PAS 32 and amounts related to a financial collateral. These disclosures allow financial statement users to evaluate the effect or potential effect of netting arrangements, including rights of set-off associated with recognized financial assets and financial liabilities on the entity's statement of financial position. The details and outstanding balances of financial assets and financial liabilities that are subject to offsetting agreements and similar arrangements are disclosed in Note 23.2.
- (iii) Consolidation and Disclosures

In 2013, the Company has adopted the following consolidation standards and disclosures that are relevant to the Company:

- PFRS 10, *Consolidated Financial Statements* (effective from January 1, 2013). This standard changes the definition of control focusing on three elements which determine whether the investor has control over the investee such as the: (a) power over the investee, (b) exposure or rights to variable returns from involvement with the investee; and, (c) ability to use such power to affect the returns. This standard also provides additional guidance to assist in determining control when it is difficult to assess, particularly in situation where an investor that owns less than 50% of the voting rights in an investee may demonstrate control to the latter.
- PFRS 12, *Disclosure of Interest in Other Entities* (effective January 1, 2013). This standard integrates and makes consistent the disclosure requirements for entities that have interest in subsidiaries, joint arrangements, associates, special purpose entities and unconsolidated structured entities. In general, this requires more extensive disclosures about the risks to which an entity is exposed from its involvement with structured entities.
- PAS 27 (Revised), *Separate Financial Statements* (effective January 1, 2013). This revised standard now covers the requirements pertaining solely to separate financial statements after the relevant discussions on control and consolidated financial statements have been transferred and included in PFRS 10.

Subsequent to the issuance of these standards, amendments to PFRS 10 and 12 were issued to clarify certain transitional guidance for the first-time application of the standards. The guidance clarifies that an entity is not required to apply PFRS 10 retrospectively in certain circumstances and clarifies the requirements to present adjusted comparatives. The guidance also made changes to PFRS 10 and PFRS 12 which provide similar relief from the presentation or adjustment of comparative information for periods prior to the immediately preceding period. Further, it provides relief by removing the requirement to present comparatives for disclosures relating to unconsolidated structured entities for any period before the first annual period for which PFRS 12 is applied. The Group has evaluated the various facts and circumstances related to its interests in other entities and it has determined that the adoption of the foregoing standards had no material impact on the amounts recognized in these consolidated financial statements. Additional information, however, are disclosed in compliance with the requirements of PAS 27 (Revised) with respect to principal place of business and incorporation of the subsidiaries (see Note 1.3).

- (iv) PFRS 13, *Fair Value Measurement* (effective from January 1, 2013). This new standard clarifies the definition of fair value and provides guidance and enhanced disclosures about fair value measurements. The requirements under this this standard do not extend the use of fair value accounting but provide guidance on how it should be applied to both financial instrument items and non-financial items for which other PFRSs require or permit fair value measurements, except in certain circumstances. This new standard applies prospectively from annual period beginning January 1, 2013; hence, disclosure requirements need not be presented in the comparative information in the first year of application.

Other than the additional disclosures presented in Note 24, the application of this new standard had no significant impact on the amounts recognized and disclosed in the consolidated financial statements.

- (v) 2009 – 2011 Annual Improvements to PFRS. Annual improvements to PFRS (2009-2011 Cycle) made minor amendments to a number of PFRS. Among those improvements, the following are relevant to the Group:

- (a) PAS 1 (Amendment), *Presentation of Financial Statements – Clarification of the Requirements for Comparative Information*. The amendment clarifies that a statement of financial position as at the beginning of the preceding period (third statement of financial position) is required when an entity applies an accounting policy retrospectively, or makes a retrospective restatement or reclassification of items that has a material effect on the information in the third statement of financial position. The amendment specifies that other than disclosure of certain specified information in accordance with PAS 8, related notes to the third consolidated statement of financial position are not required to be presented.

Consequent to the Group's adoption of PAS 19 (Revised) in the current year which resulted in retrospective restatement of the prior years' consolidated financial statements, the Group has presented a third consolidated statement of financial position as of January 1, 2012 without the related notes, except for the disclosure requirements of PAS 8.

- (b) PAS 16 (Amendment), *Property, Plant and Equipment – Classification of Servicing Equipment*. The amendment addresses a perceived inconsistency in the classification requirements for servicing equipment which resulted in classifying servicing equipment as part of inventory when it is used for more than one period. It clarifies that items such as spare parts, stand-by equipment and servicing equipment shall be recognized as property, plant and equipment when they meet the definition of property, plant and equipment, otherwise, these are classified as inventory. This amendment has no significant effect on the consolidated financial statements of the Group since it does not have such items which are covered by this amendment.
- (c) PAS 32 (Amendment), *Financial Instruments: Presentation – Tax Effect of Distributions to Holders of Equity Instruments*. The amendment clarifies that the consequences of income tax relating to distributions to holders of an equity instrument and to transaction costs of an equity transaction shall be accounted for in accordance with PAS 12, *Income Taxes*. Accordingly, income tax relating to distributions to holders of an equity instrument is recognized in profit or loss while income tax related to the transaction costs of an equity transaction is recognized in equity. This amendment had no significant impact on the Group's consolidated financial statements as it has been recognizing the effect of distributions to the holders of equity instruments and transaction costs of equity instruments in accordance with PAS 12.
- (d) PAS 34 (Amendment), *Interim Financial Reporting and Segment Information for Total Assets and Liabilities* (effective from January 1, 2013). This standard clarifies the requirements on segment information for total assets and liabilities for each reportable segment to enhance consistency with the requirements in paragraph 23 of IFRS 8, *Operating Segments*. It also clarifies that the total assets and liabilities for a particular reportable segment are required to be disclosed if, and only if: (a) a measure of total assets or of total liabilities (or both) is regularly provided to the chief operating decision maker; and, (b) there has been a material change from those measures disclosed in the last annual financial statements for that reportable segment.
- (b) *Effective in 2013 that are not Relevant to the Group*

The Group has not adopted the following new PFRS, amendments and improvement to PFRS, which are mandatory for accounting periods beginning on or after January 1, 2013 as these are not relevant to the Group.

PFRS 1 (Amendment)	:	First-time Adoption of PFRS – Government Loans
PFRS 11	:	Joint Arrangements
PAS 28 (Amendment)	:	Investments in Associates and Joint Ventures
PFRS 11 (Amendment)	:	Amendments to PFRS 11 – Transition Guidance to PFRS 11

PFRS 1 (Amendment) :

First-time Adoption of PFRS – Repeated
Application of PFRS 1 and
Borrowing Costs

(c) *Effective Subsequent to 2013 but not Adopted Early*

There are new PFRS and amendments, annual improvements and interpretation to existing standards that are effective for periods subsequent to 2013. Management has initially determined the following pronouncements, which the Group will apply in accordance with their transitional provisions, to be relevant to its financial statements:

- (i) PAS 19 (Amendment), *Employee Benefits– Defined Benefit Plans – Employee Contributions* (effective from January 1, 2014). The amendment clarifies that if the amount of the contributions from employees or third parties is dependent on the number of years of service, an entity shall attribute the contributions to periods of service using the same attribution method (i.e., either using the plan's contribution formula or on a straight-line basis) for the gross benefit. Management has initially determined that this amendment will have no impact on the Group's consolidated financial statements.
- (ii) PAS 32 (Amendment), *Financial Instruments: Presentation – Offsetting Financial Assets and Financial Liabilities* (effective from January 1, 2014). The amendment provides guidance to address inconsistencies in applying the criteria for offsetting financial assets and financial liabilities. It clarifies that a right of set-off is required to be legally enforceable, in the normal course of business; in the event of default; and in the event of insolvency or bankruptcy of the entity and all of the counterparties. The amendment also clarifies the principle behind net settlement and provided characteristics of a gross settlement system that would satisfy the criterion for net settlement. The Group does not expect this amendment to have a significant impact on its consolidated financial statements.
- (iii) PAS 36 (Amendment), *Impairment of Assets – Recoverable Amount Disclosures for Non-financial Assets* (effective from January 1, 2014). The amendment clarifies that the requirements for the disclosure of information about the recoverable amount of assets or cash-generating units is limited only to the recoverable amount of impaired assets that is based on fair value less cost of disposal. It also introduces an explicit requirement to disclose the discount rate used in determining impairment (or reversals) where recoverable amount based on fair value less cost of disposal is determined using a present value technique. Management will reflect in its subsequent years' financial statements the changes arising from this relief on disclosure requirements, if the impact of the amendment will be applicable.

- (iv) PFRS 9, *Financial Instruments: Classification and Measurement*. This is the first part of a new standard on financial instruments that will replace PAS 39, *Financial Instruments: Recognition and Measurement*, in its entirety. The first phase of the standard was issued in November 2009 and October 2010 and contains new requirements and guidance for the classification, measurement and recognition of financial assets and financial liabilities. It requires financial assets to be classified into two measurement categories: amortized cost or fair value. Debt instruments that are held within a business model whose objective is to collect the contractual cash flows that represent solely payments of principal and interest on the principal outstanding are generally measured at amortized cost. All other debt instruments and equity instruments are measured at fair value. In addition, PFRS 9 allows entities to make an irrevocable election to present subsequent changes in the fair value of an equity instrument that is not held for trading in other comprehensive income.

The accounting for embedded derivatives in host contracts that are financial assets is simplified by removing the requirement to consider whether or not they are closely related, and, in most arrangements, does not require separation from the host contract.

For liabilities, the standard retains most of the PAS 39 requirements which include amortized cost accounting for most financial liabilities, with bifurcation of embedded derivatives. The main change is that, in case where the fair value option is taken for financial liabilities, the part of a fair value change due to the liability's credit risk is recognized in other comprehensive income rather than in profit or loss, unless this creates an accounting mismatch.

In November 2013, the IASB has published amendments to International Financial Reporting Standard (IFRS) 9 that contain new chapter and model on hedge accounting that provides significant improvements principally by aligning hedge accounting more closely with the risk management activities undertaken by entities when hedging their financial and non-financial risk exposures. The amendment also now requires changes in the fair value of an entity's own debt instruments caused by changes in its own credit quality to be recognized in other comprehensive income rather in profit or loss. It also includes the removal of the January 1, 2015 mandatory effective date of IFRS 9.

To date, the remaining chapter of IFRS/PFRS 9 dealing with impairment methodology is still being completed. Further, the IASB is currently discussing some limited modifications to address certain application issues regarding classification of financial assets and to provide other considerations in determining business model.

The Group does not expect to implement and adopt PFRS 9 until its effective date. In addition, management is currently assessing the impact of PFRS 9 on the financial statements of the Group and it will conduct a comprehensive study of the potential impact of this standard prior to its mandatory adoption date to assess the impact of all changes.

- (v) PFRS 10, 12 and PAS 27 (Amendments) - *Investment Entities* (effective from January 1, 2014). The amendments define the term “investment entities,” provide supporting guidance, and require investment entities to measure investments in the form of controlling interest in another entity, at fair value through profit or loss.

Management does not anticipate this amendment to have a material impact on the Group’s financial statements.

- (vi) Annual Improvements to PFRS. Annual improvements to PFRS (2010-2012 Cycle) and PFRS (2011-2013 Cycle) made minor amendments to a number of PFRS, which are effective for annual period beginning on or after July 1, 2014. Among those improvements, the following amendments are relevant to the Group but management does not expect a material impact on the Group’s financial statements:

Annual Improvements to PFRS (2010-2012 Cycle)

- (a) PAS 16 (Amendment), *Property, Plant and Equipment* and PAS 38 (Amendment), *Intangible Assets*. The amendments clarify that when an item of property, plant and equipment, and intangible assets is revalued, the gross carrying amount is adjusted in a manner that is consistent with a revaluation of the carrying amount of the asset.
- (b) PAS 24 (Amendment), *Related Party Disclosures*. The amendment clarifies that an entity providing key management services to a reporting entity is deemed to be a related party of the latter. It also requires and clarifies that the information required to be disclosed in the financial statements are the amounts incurred by the reporting entity for key management personnel services that are provided by a separate management entity should and not the amounts of compensation paid or payable by the key management entity to its employees or directors.
- (c) PFRS 3 (Amendment), *Business Combinations* (effective July 1, 2014). Requires contingent consideration that is classified as an asset or a liability to be measured at fair value at each reporting date.
- (d) PFRS 13 (Amendment), *Fair Value Measurement*. The amendment, through a revision only in the basis of conclusion of PFRS 13, clarifies that issuing PFRS 13 and amending certain provisions of PFRS 9 and PAS 39 related to discounting of financial instruments, did not remove the ability to measure short-term receivables and payables with no stated interest rate on an undiscounted basis, when the effect of not discounting is immaterial.

Annual Improvements to PFRS (2011-2013 Cycle)

- (a) PFRS 3 (Amendment), *Business Combinations* (effective July 1, 2014). Clarifies that PFRS 3 excludes from its scope the accounting for the formation of a joint arrangement in the financial statements of the joint arrangement itself.

- (b) PFRS 13 (Amendment), *Fair Value Measurement*. The amendment clarifies that the scope of the exception for measuring the fair value of a group of financial assets and financial liabilities on a net basis (the portfolio exception) applies to all contracts within the scope of, and accounted for in accordance with, PAS 39 or PFRS 9, regardless of whether they meet the definition of financial assets or financial liabilities as defined in PAS 32.

The Group has not adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

2.3 Basis of Consolidation of Investment in Subsidiaries

The Group's consolidated financial statements comprise the accounts of the Parent Company and its subsidiaries as enumerated in Note 1.3, after the elimination of material intercompany transactions. All intercompany assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities under the Group, are eliminated in full on consolidation. Unrealized profits and losses from intercompany transactions that are recognized in assets are also eliminated in full. Intercompany losses that indicate impairment are recognized in the consolidated financial statements.

The financial statements of subsidiaries are prepared for the same reporting period as that of the Parent Company, using consistent accounting policies.

Subsidiaries are entities (including structured entities) over which the Group has control. The Group controls an entity when it is exposed, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date the Parent Company obtains control. The Parent Company reassesses whether or not it controls an entity if facts and circumstances indicate that there are changes to one or more of the three elements of controls indicated above. Accordingly, entities are deconsolidated from the date that control ceases.

(a) Accounting for Business Combination using the Acquisition Method

The acquisition method is applied to account for acquired subsidiaries. This requires recognizing and measuring the identifiable assets acquired, the liabilities assumed and any noncontrolling interest in the acquiree. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquire and the equity interests issued by the Group, if any. The consideration transferred also includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition-related costs are expensed as incurred and subsequent change in the fair value of contingent consideration is recognized directly in profit or loss.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the Group recognizes any noncontrolling interest in the acquire, either at fair value or at the noncontrolling interest's proportionate share of the recognized amounts of acquiree's identifiable net assets.

The excess of the consideration transferred, the amount of any noncontrolling interest in the acquiree and the acquisition-date fair value of any existing equity interest in the acquiree over the acquisition-date fair value of identifiable net assets acquired is recognized as goodwill. If the consideration transferred is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognized directly as gain in profit or loss.

(b) *Accounting for Business Combination using the Pooling-of-interests Method*

Business combinations arising from transfers of interests in entities that are under the common control of the principal shareholder are accounted for under the pooling-of-interests method. Transfers of assets between commonly-controlled entities are accounted for under historical cost accounting. No restatements are made to the financial information in the consolidated financial statements for periods prior to the business combination; hence, the profit and loss of the acquiree is included in the consolidated financial statements only from the acquisition date. Also, any pre-acquisition income and expenses of a subsidiary are no longer included in the consolidated financial statements.

The acquisition of AWGI by EDI was accounted for using the pooling-of-interest method (see Note 1.3).

(c) *Reverse Acquisition Accounting Involving a Non-Operating Shell Company*

The acquisition of EDI disclosed in Note 1.3 has been accounted for similar to a reverse acquisition of a non-operating shell company. Such transaction was accounted for in the consolidated financial statements of the Parent Company, which is the legal parent (the accounting acquiree), as a continuation of the consolidated financial statements of the EDI Group, which is the legal subsidiary (the accounting acquirer).

In accounting for such transaction, the comparative information presented in these consolidated financial statements is, therefore, that of the EDI Group and not that originally presented in the previous financial statements of the legal parent (accounting acquiree, in this case, the Parent Company). The comparative information is also adjusted retroactively to reflect the legal capital of the Parent Company in each of the years presented.

Prior to 2013, as allowed under existing accounting standards, EDI had not presented its consolidated financial statements because it was a wholly-owned subsidiary of AGI, which presents consolidated financial statements available for public use that comply with PFRS.

The 2012 consolidated financial statements, which represent the consolidated financial statements of the EDI Group, except for the capital structure, reflect:

- The assets and liabilities of EDI Group, which are recognized and measured at their pre-acquisition carrying amounts;
- The retained earnings and other equity balances, which primarily pertain to accumulated translation adjustments, of the EDI Group before the business acquisition (i.e., not those of the Parent Company);

- The capital stock and additional paid-in capital (APIC), which represent the legal capital of the Parent Company;
- The total equity, which is equivalent to that of the EDI Group;
- The excess of the net assets of the EDI Group over the sum of the legal capital of the Parent Company and the consolidated retained earnings and other equity account of the EDI Group, which is presented as Equity reserves; and,
- The net profit for all the periods presented, which reflects that of the EDI Group.

2.4 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Group's strategic steering committee; its chief operating decision-maker. The strategic steering committee is responsible for allocating resources and assessing performance of the operating segments.

In identifying its operating segments, management generally follows the Group's products and service lines, which represent the main products and services provided by the Group.

Presently, the Group's only significant operating segment is related to its manufacturing and trading operations; hence, no segment reporting is presented.

2.5 Financial Assets

Financial assets are recognized when the Group becomes a party to the contractual terms of the financial instrument. Financial assets other than those designated and effective as hedging instruments are classified into the following categories: financial assets at fair value through profit or loss (FVTPL), loans and receivables, held-to-maturity investments and available-for-sale financial assets. Financial assets are assigned to the different categories by management on initial recognition, depending on the purpose for which the investments were acquired.

Regular purchases and sales of financial assets are recognized on their trade date. All financial assets that are not classified as at FVTPL are initially recognized at fair value plus any directly attributable transaction costs. Financial assets carried at FVTPL are initially recorded at fair value and the related transaction costs are recognized in profit or loss.

The financial asset categories currently relevant to the Group are loans and receivables and financial assets at FVTPL. A more detailed description of these financial assets is as follows:

(a) Financial Assets at FVTPL

This category includes financial assets that are either classified as held for trading or that meets certain conditions and are designated by the entity to be carried at fair value through profit or loss upon initial recognition. All derivatives fall into this category, except for those designated and effective as hedging instruments. Assets in this category are classified as current if they are either held for trading or are expected to be realized within 12 months from the end of the reporting period.

Financial assets at FVTPL are measured at fair value, and changes therein are recognized in profit or loss. Financial assets (except derivatives and financial instruments originally designated as financial assets at fair value through profit or loss) may be reclassified out of FVTPL category if they are no longer held for the purpose of being sold or repurchased in the near term.

(b) Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Group provides money, goods or services directly to a debtor with no intention of trading the receivables. They are included in current assets, except for maturities greater than 12 months after the end of the reporting period which are classified as non-current assets.

The Group's financial assets categorized as loans and receivables are presented as Cash and Cash Equivalents and Trade and Other Receivables (except for Advances to Suppliers) and Refundable security deposit (presented as part of Other Non-current Assets) in the consolidated statement of financial position. Cash and cash equivalents include cash on hand, demand deposits and short-term, highly liquid investments with original maturities of three months or less, readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value.

Loans and receivables are subsequently measured at amortized cost using the effective interest method, less impairment loss, if any. Impairment loss is provided when there is objective evidence that the Group will not be able to collect all amounts due to it in accordance with the original terms of the receivables. The amount of the impairment loss is determined as the difference between the assets' carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred), discounted at the financial asset's original effective interest rate or current effective interest rate determined under the contract if the loan has a variable interest rate.

All income and expenses, including impairment loss, relating to financial assets that are recognized in profit or loss are presented as part of Other Revenues under the Revenues account and in the Other Charges account in the consolidated statement of comprehensive income.

For investments that are actively traded in organized financial markets, fair value is determined by reference to stock exchange-quoted market bid prices at the close of business on the reporting period. For investments where there is no quoted market price, fair value is determined by reference to the current market value of another instrument which is substantially the same or is calculated based on the expected cash flows of the underlying net asset base of the investment.

Non-compounding interest, dividend income and other cash flows resulting from holding financial assets are recognized in profit or loss when earned, regardless of how the related carrying amount of financial assets is measured.

The financial assets are derecognized when the contractual rights to receive cash flows from the financial instruments expire, or when the financial assets and all substantial risks and rewards of ownership have been transferred to another party.

2.6 Inventories

Inventories are valued at the lower of cost and net realizable value. Cost is determined using the first-in, first-out method. Finished goods and work-in-process inventories include the cost of raw materials, direct labor and a proportion of manufacturing overhead based on normal operating capacity. The cost of raw materials include all costs directly attributable to acquisitions, such as the purchase price, import duties and other taxes that are not subsequently recoverable from taxing authorities.

Net realizable value of finished goods is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. Net realizable value of raw materials is the current replacement cost.

2.7 Prepayments and Other Assets

Prepayments and other assets pertain to other resources controlled by the Group as a result of past events. They are recognized in the consolidated financial statements when it is probable that the future economic benefits will flow to the entity and the asset has a cost or value that can be measured reliably.

Other recognized assets of similar nature, where future economic benefits are expected to flow to the Group beyond one year after the end of the reporting period (or in the normal operating cycle of the business, if longer), are classified as non-current assets.

2.8 Property, Plant and Equipment

Property, plant and equipment, except land, are carried at acquisition cost less accumulated depreciation, amortization and any impairment losses. As no finite useful life for land can be determined, related carrying amount (which is cost less any impairment losses, if any) is not depreciated.

The cost of an asset comprises its purchase price and directly attributable costs of bringing the asset to working condition for its intended use. Expenditures for additions, major improvements and renewals are capitalized; expenditures for repairs and maintenance are charged to expense as incurred.

Depreciation is computed on the straight-line basis over the estimated useful lives of the assets as follows:

Buildings and building improvements	25 years
Land improvement	10 years
Machinery and equipment	10 years
Tools and other equipment	2 to 10 years
Transportation equipment	5 to 10 years
Office furniture and fixtures	3 to 10 years

Moulds and dies are depreciated using their expected usage for the period. Total usage multiplied by rate results to depreciation expense for the period. The rate is computed by dividing cost by estimated cases to be produced.

Leasehold improvements are amortized over the estimated useful life of the improvements of 5 to 10 years or the lease term, whichever is shorter.

Construction in progress represents properties under construction and is stated at cost. This includes cost of construction and other direct costs. The account is not depreciated until such time that the assets are completed and available for use.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (see Note 2.17).

The residual values and estimated useful lives of property, plant and equipment are reviewed, and adjusted if appropriate, at the end of each reporting period.

An item of property, plant and equipment, including the related accumulated depreciation, amortization and impairment loss, is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in consolidated statement of comprehensive income in the year the item is derecognized.

2.9 Trademarks

Trademarks acquired and used in the production are accounted for under the cost model. The cost of the trademarks is the amount of cash or cash equivalents paid or the fair value of the other considerations given up to acquire the asset at the time of its acquisition. Capitalized costs are amortized on a straight-line basis over the estimated useful life of ten years. In addition, trademarks are subject to impairment testing as described in Note 2.17.

When an intangible asset, such as trademarks, is disposed of, the gain or loss on disposal is determined as the difference between the proceeds and the carrying amount of the asset and is recognized in profit or loss.

2.10 Financial Liabilities

The categories of financial liabilities relevant to the Group are more fully described below.

(a) Financial Liabilities at FVTPL

Financial liabilities are classified in this category if they are held for trading or derivative transactions that are not accounted for as accounting hedges, or when the Group elects to designate a financial liability under this category.

The Group occasionally uses derivative financial instruments, such as foreign exchange forward contracts, to manage its risks associated with fluctuations in foreign currency. Such derivative financial instruments are initially recognized at fair value on the date on which the derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

The Group's derivative instruments provide economic hedges under the Group's policies but are not designated as accounting hedges. Consequently, any gains or losses arising from changes in fair value are taken directly to profit or loss for the period.

(b) *Financial Liabilities at Amortized Cost*

This category pertains to financial liabilities that are not held for trading or not designated as FVTPL upon inception of the liability. This includes trade and other payables [except output value-added tax (VAT) and other tax-related payables] and is recognized when the Group becomes a party to the contractual agreements of the instrument.

Financial liabilities are initially recognized at their fair values and subsequently measured at amortized cost using effective interest method for maturities beyond one year, less settlement payments.

All interest-related charges, if any, are recognized as an expense under the caption Other Charges in the consolidated statement of comprehensive income.

Dividend distributions to shareholders are recognized as financial liabilities upon declaration by the Group.

Financial liabilities are classified as current liabilities if payment is due to be settled within one year or less after the end of the reporting period (or in the normal operating cycle of the business, if longer), or the Group does not have an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period. Otherwise, these are presented as non-current liabilities.

Financial liabilities are derecognized from the consolidated statement of financial position only when the obligations are extinguished either through discharge, cancellation or expiration. The difference between the carrying amount of the financial liability derecognized and the consideration paid or payable is recognized in profit or loss.

2.11 *Offsetting Financial Instruments*

Financial assets and liabilities are offset and the resulting net amount is reported in the consolidated statement of financial position when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

2.12 *Business Combination*

Business acquisitions are accounted for using the acquisition or pooling-of-interest method of accounting.

Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of the net identifiable assets of the acquired subsidiary at the date of acquisition. Subsequent to initial recognition, goodwill, if any, is measured at cost less any accumulated impairment losses. Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed.

Negative goodwill, which is the excess of the Group's interest in the net fair value of net identifiable assets acquired over acquisition cost, is charged directly to income.

For the purpose of impairment testing, goodwill is allocated to cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The cash-generating units or groups of cash-generating units are identified according to operating segment.

Gains and losses on the disposal of an interest in a subsidiary include the carrying amount of goodwill relating to it.

If the business combination is achieved in stages, the acquirer is required to remeasure its previously held equity interest in the acquiree at its acquisition-date fair value and recognize the resulting gain or loss, if any, in the profit or loss or other comprehensive income, as appropriate.

Any contingent consideration to be transferred by the Group is recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognized in accordance with PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, either in profit or loss or as a change to other comprehensive income. Contingent consideration that is classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

2.13 Provisions and Contingencies

Provisions are recognized when present obligations will probably lead to an outflow of economic resources and they can be estimated reliably even if the timing or amount of the outflow may still be uncertain. A present obligation arises from the presence of a legal or constructive obligation that has resulted from past events.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the end of the reporting period, including the risks and uncertainties associated with the present obligation. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. When time value of money is material, long-term provisions are discounted to their present values using a pretax rate that reflects market assessments and the risks specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense. Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

In those cases where the possible outflow of economic resource as a result of present obligations is considered improbable or remote, or the amount to be provided for cannot be measured reliably, no liability is recognized in the consolidated financial statements. Similarly, possible inflows of economic benefits to the Group that do not yet meet the recognition criteria of an asset are considered contingent assets, hence, are not recognized in the financial statements. On the other hand, any reimbursement that the Group can be virtually certain to collect from a third party with respect to the obligation is recognized as a separate asset not exceeding the amount of the related provision.

2.14 Revenue and Expense Recognition

Revenue is measured by reference to the fair value of consideration received or receivable by the Group for goods sold, excluding VAT, rebates and trade discounts.

Revenue is recognized to the extent that the revenue can be reliably measured; it is probable that future economic benefits will flow to the Group; and the costs incurred or to be incurred can be measured reliably. In addition, the following specific recognition criteria must also be met before revenue is recognized:

- (a) *Sale of goods* – Revenue is recognized when the risks and rewards of ownership of the goods have passed to the buyer, i.e., generally when the customer has acknowledged delivery of goods.

- (b) *Interest income* – This is recognized as the interest accrues taking into account the effective yield on the asset.

Cost and expenses are recognized in the consolidated statement of comprehensive income upon utilization of goods or services or at the date they are incurred.

2.15 Leases – Group as Lessee

Leases are classified as operating lease when all the risks and benefits of ownership of the asset are not substantially transferred to the Group. Operating lease payments are recognized as expense in profit or loss on a straight-line basis over the lease term. Associated costs, such as maintenance and insurance, are expensed as incurred.

The Group determines whether an arrangement is, or contains, a lease based on the substance of the arrangement. It makes an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

2.16 Foreign Currency Transactions and Translation

- (a) *Transactions and Balances*

The accounting records of the Group are maintained in Philippine pesos. Foreign currency transactions during the year are translated into the functional currency at exchange rates which approximate those prevailing on transaction dates.

Foreign currency gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the consolidated statement of comprehensive income as part of profit or loss.

- (b) *Translation of Financial Statements of a Foreign Subsidiary*

The operating results and financial position of EIL, which are measured using the U.S. dollar, its functional currency, are translated to Philippine pesos, the Group's functional currency, as follows:

- (i) Monetary assets and liabilities for each statement of financial position presented are translated at the closing rate at the end of the reporting period;
- (ii) Non-monetary assets and liabilities for each statement of financial position presented, which are measured in terms of historical cost, are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities which are measured at fair value are translated using the exchange rates at the date when the fair value was determined;
- (iii) Income and expenses for each profit or loss account are translated at the monthly average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and,
- (iv) All resulting translation adjustments are recognized in other comprehensive income and in a separate component of consolidated statement of changes in equity under Accumulated Translation Adjustments.

When a foreign operation is partially disposed of or sold, such exchange differences are recognized in the consolidated statement of comprehensive income as part of the gain or loss on sale.

The translation of the financial statements into Philippine peso should not be construed as a representation that the U.S. dollar amounts could be converted into Philippine peso amounts at the translation rates or at any other rates of exchange.

2.17 Impairment of Non-financial Assets

The Group's property, plant and equipment, trademarks and other non-financial assets are subject to impairment testing. All other individual assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount of those assets may not be recoverable.

For purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). As a result, assets are tested for impairment either individually or at the cash-generating unit level.

Impairment loss is recognized in profit or loss for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amounts which is the higher of its fair value less costs to sell and its value in use. In determining value in use, management estimates the expected future cash flows from each cash-generating unit and determines the suitable interest rate in order to calculate the present value of those cash flows. Discount factors are determined individually for each cash-generating unit and reflect management's assessment of respective risk profiles, such as market and asset-specific risk factors.

All assets are subsequently reassessed for indications that an impairment loss previously recognized may no longer exist. An impairment loss is reversed if the asset's or cash generating unit's recoverable amount exceeds its carrying amount.

2.18 Employment Benefits

The Group's post-employment benefits to its employees are as follows:

(a) Defined Benefit Plan

The Group has not established a formal post-employment plan. However, it complies with the requirements of Republic Act (RA) No. 7641, *The Retirement Pay Law*, in providing for post-employment benefit to qualified employees. It has accrued the estimated cost of post-employment benefit under a defined benefit plan using the projected unit credit method covering all regular and full-time employees.

RA No. 7641 is a defined benefit plan. A defined benefit plan is a post-employment plan that defines an amount of post-employment benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and salary. The legal obligation for any benefits from this kind of post-employment plan remains with the Group, even if plan assets for funding the defined benefit plan have been acquired. Plan assets may include assets specifically designated to a long-term benefit fund, as well as qualifying insurance policies. The Group's retirement cost accrual covers all regular full-time employees.

The liability recognized in the statement of financial position for defined benefit plan is the present value of the defined benefit obligation (DBO) at the end of the reporting period less the fair value of plan assets, if any. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using a discount rate derived from the interest rates of a zero coupon government bond as published by Philippine Dealing and Exchange Corporation, that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating to the terms of the related post-employment liability.

Remeasurements, comprising of actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions) are reflected immediately in the statement of financial position with a charge or credit recognized in other comprehensive income in the period in which they arise. Net interest is calculated by applying the discount rate at the beginning of the period, taking account of any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest is reported as part of Other Charges account in the consolidated statement of comprehensive income.

Past-service costs are recognized immediately in profit or loss in the period of a plan amendment.

(b) Defined Contribution Plan

A defined contribution plan is a post-employment plan under which the Group pays fixed contributions into an independent entity. The Group has no legal or constructive obligations to pay further contributions after payment of the fixed contribution. The contributions recognized in respect of defined contribution plans are expensed as they fall due. Liabilities and assets may be recognized if underpayment or prepayment has occurred and are included in current liabilities or current assets as they are normally of a short-term nature.

(c) Bonus Plans

The Group recognizes a liability and an expense for bonuses, based on a formula that takes into consideration the Group's profits after certain adjustments. The Group recognizes a provision where it is contractually obliged to pay the benefits, or where there is a past practice that has created a constructive obligation.

(d) *Compensated Absences*

Compensated absences are recognized for the number of paid leave days (including holiday entitlement) remaining at the end of the reporting period. They are included in Trade and Other Payables account in the consolidated statement of financial position at the undiscounted amount that the Group expects to pay as a result of the unused entitlement.

2.19 *Income Taxes*

Tax expense recognized in profit or loss comprises the sum of deferred tax and current tax not recognized in other comprehensive income or directly in equity, if any.

Current tax assets or liabilities comprise those claims from, or obligations to, fiscal authorities relating to the current or prior reporting period, that are uncollected or unpaid at the end of the reporting period. They are calculated using the tax rates and tax laws applicable to the fiscal periods to which they relate, based on the taxable profit for the year. All changes to current tax assets or liabilities are recognized as a component of tax expense in profit or loss.

Deferred tax is accounted for using the liability method, on temporary differences at the end of the reporting period between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes. Under the liability method, with certain exceptions, deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences and the carryforward of unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled provided such tax rates have been enacted or substantively enacted at the end of the reporting period.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Most changes in deferred tax assets or liabilities are recognized as a component of tax expense in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

Deferred tax assets and deferred tax liabilities are offset if the Group has a legally enforceable right to set off current tax assets against current tax liabilities and the deferred taxes relate to the same entity and the same taxation authority.

2.20 *Related Party Relationships and Transactions*

Related party transactions are transfers of resources, services or obligations between the Group and its related parties, regardless whether a price is charged.

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. These parties include: (a) individuals owning, directly or indirectly through one or more intermediaries, control or are controlled by, or under common control with the Group; (b) associates; and, (c) individuals owning, directly or indirectly, an interest in the voting power of the Group that gives them significant influence over the Group and close members of the family of any such individual.

In considering each possible related party relationship, attention is directed to the substance of the relationship and not merely on the legal form.

2.21 Equity

Capital stock represents the nominal value of shares that have been issued.

Additional paid-in capital includes any premium received on the issuance of capital stock. Any transaction costs associated with the issuance of shares are deducted from additional paid-in capital, net of any related income tax benefits.

Equity reserves represent the difference between the net assets of the EDI Group and the sum of the legal capital of the Parent Company and the combined retained earnings and other equity account of the EDI Group as a result of the accounting for reverse acquisition involving a non-operating shell company [see Note 2.3(c)].

Accumulated translation adjustments represent the translation adjustments resulting from the conversion of foreign currency denominated financial statements of certain subsidiary into the Group's presentation currency (see Note 22.1).

Revaluation reserves comprise gains and losses due to remeasurements of post-employment defined benefit plan.

Retained earnings represent all current and prior period results of operations as reported in the profit or loss section of the consolidated statement of comprehensive income, reduced by the amounts of dividends declared.

2.22 Earnings Per Share

Basic earnings per share (EPS) is determined by dividing the net profit for the year attributable to common shareholders by the weighted average number of common shares issued and outstanding during the year, after giving retroactive effect to any stock dividends, stock split or reverse stock split declared in the current year.

Diluted EPS is computed by adjusting the weighted average number of ordinary shares outstanding to assume conversion of dilutive potential shares. The Group does not have dilutive potential shares outstanding that would require disclosure of diluted earnings per share in the consolidated statement of comprehensive income.

In applying the reverse acquisition method [see Note 2.3 (c)], the determination of the weighted average number of ordinary shares outstanding considers the following:

- (a) the number of ordinary shares outstanding from the beginning of that period to the acquisition date is computed on the basis of the weighted average number of ordinary shares of the legal acquiree outstanding during the period multiplied by the exchange ratio established in the business combination; and,

- (b) the number of ordinary shares outstanding from the acquisition date to the end of that period is the actual number of ordinary shares of the legal acquirer outstanding during the period.

The basic EPS for each comparative period before the acquisition date presented in the consolidated financial statements following a reverse acquisition is calculated by dividing the profit or loss of the legal acquiree attributable to ordinary shareholders in each of those periods by the legal acquiree's historical weighted average number of ordinary shares outstanding multiplied by the exchange ratio established during the acquisition.

2.23 Events After the End of the Reporting Period

Any post-year-end event that provides additional information about the Group's consolidated financial position at the end of the reporting period (adjusting event) is reflected in the consolidated financial statements. Post-year-end events that are not adjusting events, if any, are disclosed when material to the consolidated financial statements.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of the Group's consolidated financial statements in accordance with PFRS require management to make judgments and estimates that affect the amounts reported in the financial statements and related notes. Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may ultimately differ from these estimates

3.1 Critical Management Judgments in Applying Accounting Policies

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimation, which have the most significant effect on the amounts recognized in the consolidated financial statements:

(a) Distinction Between Operating and Finance Leases

The Group has entered into various lease agreements. Critical judgment was exercised by management to distinguish each lease agreement as either an operating or a finance lease by looking at the transfer or retention of significant risk and rewards of ownership of the properties covered by the agreements. Failure to make the right judgment will result in either overstatement or understatement of assets and liabilities.

(b) Recognition of Provisions and Contingencies

Judgment is exercised by management to distinguish between provisions and contingencies. Policies on recognition of provisions and contingencies are discussed in Note 2.13 and disclosures on relevant provisions and contingencies are presented in Note 21.

3.2 Key Sources of Estimation Uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year:

(a) Impairment of Trade and Other Receivables

Adequate amount of allowance for impairment is provided for specific and groups of accounts, where objective evidence of impairment exists. The Group evaluates the amount of allowance for impairment based on available facts and circumstances affecting the collectibility of the accounts, including, but not limited to, the length of the Group's relationship with the customers, the customers' current credit status, average age of accounts, collection experience and historical loss experience. The carrying value of trade and other receivables and the analysis of allowance for impairment on such financial assets are shown in Note 6.

(b) Fair Value Measurement for Financial Instruments

Management apply valuation techniques to determine the fair value of financial instruments where active market quotes are not available. This requires management to develop estimates and assumptions based on market inputs, using observable data that market participants would use in pricing the instrument. Where such data is not observable, management uses its best estimate. Estimated fair values of financial instruments may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date. The carrying values of the Group's financial instruments at FVTPL and the amounts of fair value changes recognized during the years on those assets are disclosed in Note 7.

(c) Determining Net Realizable Values of Inventories

In determining the net realizable values of inventories, management takes into account the most reliable evidence available at the times the estimates are made. The Group's core business is subject to changes in market factors that directly affect the demand for alcoholic beverages such as purchasing power of consumers, degree of competition, and other market-related factors. Future realization of inventories is affected by price changes in the costs incurred necessary to make a sale. These aspects are considered as key sources of estimation uncertainty and may cause significant adjustments to the Group's inventories within the next financial year. No allowance for inventory decline was recognized in 2013 and 2012 as the carrying amounts of the inventories are lower than their net realizable values (see Note 8).

(d) Estimating Useful Lives of Property, Plant and Equipment and Trademarks

The Group estimates the useful lives of property, plant and equipment, and trademarks based on the period over which the assets are expected to be available for use. The estimated useful lives of property, plant and equipment, and trademarks are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets (see Notes 2.8 and 2.9). The carrying amounts of property, plant and equipment and trademarks are presented in Notes 9 and 10, respectively.

(e) *Determining Realizable Amount of Deferred Tax Assets*

The Group reviews its deferred tax assets at the end of each reporting period and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Management assessed that the deferred tax assets will be fully utilized in the coming years. The carrying value of deferred tax assets as of those dates is disclosed in Note 17.

(f) *Impairment of Non-financial Assets*

In assessing impairment, management estimates the recoverable amount of each asset or a cash-generating unit based on expected future cash flows and uses an interest rate to calculate the present value of those cash flows. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate. Though management believes that the assumptions used in the estimation of fair values reflected in the financial statements are appropriate and reasonable, significant changes in these assumptions may materially affect the assessment of recoverable values and any resulting impairment loss could have a material adverse effect on the results of operations. No impairment losses were recognized on non-financial assets in 2013 and 2012 based on management's assessment.

(g) *Valuation of Post-employment Defined Benefit*

The determination of the Company's obligation and cost of post-employment defined benefit is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions include, among others, discount rates, salary rate increase, and employee turnover rate. A significant change in any of these actuarial assumptions may generally affect the recognized expense and the carrying amount of the post-employment benefit obligation in the next reporting period.

The amounts of post-employment benefit obligation and expense and an analysis of the movements in the estimated present value of post-employment benefit, as well as the significant assumptions used in estimating such obligation are presented in Note 16.

4. **SEGMENT INFORMATION**

Presently, the Group's only significant operating segment is related to its manufacturing and trading of alcoholic beverage products. This is being monitored and strategic decisions are made on the basis of operating results.

Furthermore, the Group's operations are presently concentrated in one location; hence, it has no geographical segment classification. The Group, however, continues to acquire properties for future development in different locations. Sales to any of the Group's major customers did not exceed 10% of the Group's revenues in all of the periods presented.

Since the Group has only one significant operating segment, the items presented in the consolidated financial statements corresponding to assets and liabilities represent virtually the entire segment assets and liabilities.

5. CASH AND CASH EQUIVALENTS

This account includes the following components:

	<u>2013</u>	<u>2012</u>
Cash on hand and in banks	P 1,948,055,704	P 777,954,753
Short-term placements	<u>22,092,139,290</u>	<u>3,878,494,840</u>
	<u>P24,040,194,994</u>	<u>P 4,656,449,593</u>

Cash in banks generally earn interest at rates based on daily bank deposit rates. Short-term placements have an average maturity of 30 days and earn effective annual interest rates ranging from 1.2% to 2.5% in 2013, 3.0% to 3.9% in 2012 and 1.8% to 3.8% in 2011. Interest earned amounted to P128.4 million, P57.8 million and P31.9 million in 2013, 2012 and 2011, respectively, and is presented as part of Other Revenues under Revenues account in the consolidated statements of comprehensive income (see Note 13).

6. TRADE AND OTHER RECEIVABLES – Net

Details of this account are as follows:

	<u>Note</u>	<u>2013</u>	<u>2012</u>
Trade receivables	18.4	P 2,824,069,959	P 1,935,365,800
Allowance for impairment		<u>(18,788,211)</u>	<u>(12,628,992)</u>
		<u>2,805,281,748</u>	<u>1,922,736,808</u>
Advances to suppliers		176,940,600	38,966,698
Advances to officers and employees	18.5	14,463,297	10,408,070
Accrued interest receivable		14,111,033	-
Other receivables – net of allowance for impairment amounting to P882,669		<u>14,757,382</u>	<u>19,257,571</u>
		<u>220,272,312</u>	<u>68,632,339</u>
		<u>P 3,025,554,060</u>	<u>P 1,991,369,147</u>

Trade receivables are usually due within 30 days and do not bear any interest. All trade receivables are subject to credit risk exposure.

All of the Group's trade and other receivables have been reviewed for indications of impairment and adequate amounts of allowance for impairment have been recognized.

A reconciliation of the allowance for impairment is shown below.

	<u>2013</u>	<u>2012</u>
Balance at beginning of year	P 13,511,661	P 8,556,884
Impairment losses	6,159,219	4,072,108
Allowance carried from acquired subsidiary	<u>-</u>	<u>882,669</u>
Balance at end of year	<u>P 19,670,880</u>	<u>P 13,511,661</u>

Impairment losses on trade and other receivables are presented as part of Other Charges in the consolidated statements of comprehensive income.

The carrying amounts of these financial assets are a reasonable approximation of their fair values due to their short-term duration.

7. FINANCIAL INSTRUMENTS AT FAIR VALUE THROUGH PROFIT OR LOSS

This account pertains to derivative assets and liabilities arising from foreign exchange margins trading spot and forward contracts entered into. The term of these forward contracts is usually one month.

The net changes in fair values of these financial instruments are presented in the consolidated statements of comprehensive income as part of Other Revenues under the Revenues (for net fair value gains) account or Other Charges (for net fair value losses). The Group recognized fair value loss amounting to P212.2 million in 2013 and P57.2 million in 2011 and fair value gains amounting to P292.5 million in 2012 (see Note 13).

8. INVENTORIES

Inventories as of December 31, 2013 and 2012 are all stated at cost, which is lower than their net realizable values. The details of inventories are shown below.

	<u>Notes</u>	<u>2013</u>	<u>2012</u>
Finished goods	14, 18.1	P 1,036,441,587	P 424,547,140

In 2013, the Group acquired the distilling facility of Consolidated Distillers of the Far East, Inc. (Condis), a related party under common ownership, located in Lumbangan, Nasugbu, Batangas (see Note 18.8). Construction of another distillery plant started during the year. In 2012, the Group began expansion of the main bottling plant in Sta. Rosa, Laguna. The total amount incurred in the aforementioned construction are included in the Construction in Progress account.

The Group, through EIL, acquired in 2013, certain parcels of land in Spain.

Also in 2012, the Group acquired a bottling plant in Biñan, Laguna from Diageo Philippines which now serves as EDP's annex plant, and it consolidated the glass manufacturing plant of AWGL.

The amount of depreciation and amortization is allocated as follows:

	Notes	2013	2012	2011
Cost of goods sold	14	P 268,737,100	P 130,754,266	P 76,817,753
Selling and distribution	15	37,712,739	78,056,333	24,854,105
Administrative expenses	15	6,310,369	5,163,359	3,454,009
		<u>P 312,760,208</u>	<u>P 213,973,958</u>	<u>P 105,125,867</u>

10. TRADEMARKS

The Group's trademarks were acquired from Condis, to manufacture and sell distilled spirits, particularly brandy, under the brand names "Emperador Brandy" and "Generoso Brandy." The Group also has another trademark for its flavored-alcoholic beverage under the brand name "The Bar."

In 2013, the Group registered another trademark under the new brand name "Emperador Deluxe".

The remaining useful lives of the trademarks as of December 31 are as follows:

	2013	2012
Emperador Brandy	3 years	4 years
Generoso Brandy	3 years	4 years
The Bar	4.5 years	5.5 years
Emperador Deluxe	9.5 years	-

Management believes that the trademarks are not impaired as of December 31, 2013 and 2012 as the Group's products that carry such brands and trademarks are still performing very well in the market.

The net carrying amount of trademarks is as follows:

	<u>Note</u>	<u>2013</u>	<u>2012</u>
Balance at beginning of year		P 415,238,652	P 516,495,929
Addition		16,153,914	-
Amortization during the year	15	(102,334,204)	(101,257,277)
Balance at end of year		<u>P 329,058,362</u>	<u>P 415,238,652</u>

11. OTHER NON-CURRENT ASSETS

This account is composed of the following:

	<u>Note</u>	<u>2013</u>	<u>2012</u>
Deferred input VAT		P 193,375,169	P 109,507,928
Refundable security deposits - net	18.3	34,755,535	38,048,832
Others		<u>97,320,104</u>	<u>-</u>
		<u>P 325,450,808</u>	<u>P 147,556,760</u>

The carrying amounts of refundable security deposits, which are carried at amortized cost, are determined as follows:

	<u>Note</u>	<u>2013</u>	<u>2012</u>
Refundable security deposits	18.3	P 35,195,564	P 39,016,892
Unamortized discount		(440,029)	(968,060)
		<u>P 34,755,535</u>	<u>P 38,048,832</u>

In 2013 and 2012, additional refundable security deposits were paid by the Company to various lessors for new lease agreements covering certain manufacturing facilities and storage tanks for raw materials.

Amortization of the discount amounting P0.5 million for both 2013 and 2012 and P1.8 million in 2011, is presented as part of Other Revenues under the Revenues account in the consolidated statements of comprehensive income (see Note 13).

12. TRADE AND OTHER PAYABLES

The breakdown of this account is as follows:

	<u>Note</u>	<u>2013</u>	<u>2012</u>
Trade payables	18.1, 18.2, 18.3	P 2,107,970,814	P 2,099,762,973
Advances from related parties	18.6	903,742,657	1,264,150,739
Accrued expenses		321,910,614	315,515,416
Output VAT payable		254,809,111	89,880,150
Others		<u>83,417,267</u>	<u>84,859,885</u>
		<u>P 3,671,850,463</u>	<u>P 3,854,169,163</u>

Trade payables arise mostly from purchases of raw materials such as alcohol, molasses, flavorings and other supplies. Also included in the trade payables are amounts due to Tradewind Estates, Inc. (TEI), a related party under common ownership, for purchases of machinery and equipment in 2010 (see Note 18.2).

13. REVENUES

The details of revenues are shown below:

	<u>Notes</u>	<u>2013</u>	<u>2012</u> (As Restated – see Note 2.2)	<u>2011</u> (As Restated – see Note 2.2)
Sale of goods		P 28,606,991,751	P 22,812,319,912	P 16,994,657,222
Other revenues – net	5, 7, 11	<u>1,257,753,091</u>	<u>781,970,417</u>	<u>360,381,612</u>
		<u>P 29,864,744,842</u>	<u>P 23,594,290,329</u>	<u>P 17,355,038,834</u>

14. COST OF GOODS SOLD

The details of cost of goods sold for the years ended December 31, 2013, 2012 and 2011 are shown below.

	Notes	2013	2012	2011

		<u>P 2,379,737,177</u>	<u>P 2,201,955,517</u>	<u>P 1,570,901,300</u>

These expenses are classified in profit or loss in the consolidated statements of comprehensive income as follows:

	2013	2012 (As Restated – see Note 2.2)	2011 (As Restated – see Note 2.2)
Selling and distribution	P 2,097,852,769	P 1,983,588,161	P 1,496,761,737
General and administrative expenses	<u>281,884,408</u>	<u>218,367,356</u>	<u>74,139,563</u>
	<u>P 2,379,737,177</u>	<u>P 2,201,955,517</u>	<u>P 1,570,901,300</u>

16. EMPLOYEE BENEFITS

16.1 Salaries and Employee Benefits Expense

The expenses recognized for salaries and employee benefits are summarized below.

	Notes	2013	2012 (As Restated – see Note 2.2)	2011 (As Restated – see Note 2.2)
Salaries and wages		P 232,971,073	P 185,448,063	P 139,142,345
Social security costs		14,936,644	9,257,148	9,094,934
Post-employment defined benefit	16.2	6,787,638	6,555,530	2,967,716
Other short-term benefits		12,285,233	11,353,922	31,376,515
	14, 15	<u>P 266,980,588</u>	<u>P 212,614,663</u>	<u>P 182,581,510</u>

The amount of employee benefits expense is allocated as follows:

	Notes	2013	2012 (As Restated – see Note 2.2)	2011 (As Restated – see Note 2.2)
Selling and distribution	15	P 131,654,894	P 127,088,903	P 143,188,023
Costs of goods sold	14	102,709,562	59,319,680	17,130,117
Administrative expenses	15	32,616,132	26,206,080	22,263,370
		<u>P 266,980,588</u>	<u>P 212,614,663</u>	<u>P 182,581,510</u>

16.2 Post-employment Defined Benefit

(a) Characteristics of the Defined Benefit Plan

The Group has not yet established a formal retirement plan. However, it is required to pay qualified employees retirement benefits under R.A. 7641, which relates to a defined benefit plan. The Group obtains an actuarial valuation report to determine the balance of retirement benefit obligation and the amount of retirement benefit expense in accordance with PAS 19 (Revised) and the provisions of R.A. 7641.

(b) Explanation of Amounts Presented in the Financial Statements

Actuarial valuations are made regularly to update the post-employment benefit costs. All amounts presented in the succeeding pages are based on the actuarial valuation report obtained from an independent actuary in 2013 including the comparative financial statements for December 31, 2012 and the corresponding figures as of January 1, 2012 which has been restated in line with the adoption of PAS 19 (Revised) [see Note 2.2(a)(ii)].

The present value of the retirement benefit obligation amounted to P87.8 million and P54.1 million as at December 31, 2013 and 2012, respectively, and is presented as Retirement Benefit Obligation in the consolidated statements of financial position.

The movements in the present value of the retirement benefit obligation recognized in the books are as follows:

	Note	2013	2012 (As Restated – see Note 2.2)	2011 (As Restated – see Note 2.2)
Balance at beginning of year		P 54,124,877	P 17,510,396	P 13,474,490
Current service cost	16.1	6,787,638	6,555,530	2,967,716
Interest expense		2,899,330	2,650,737	1,068,190
Remeasurements –				
Actuarial losses (gains)				
arising from:				
Experience adjustments		19,414,018	684,268	-
Changes in financial assumptions		4,554,459	7,153,620	-
Changes in demographic assumptions		-	(2,191,106)	-
Additions due to acquired subsidiary		<u>-</u>	<u>21,761,432</u>	<u>-</u>
Balance at end of year		<u>P 87,780,322</u>	<u>P 54,124,877</u>	<u>P 17,510,396</u>

The components of amounts recognized in profit or loss and other comprehensive income in respect of the retirement benefit obligation are as follows:

	2013	2012 (As Restated – see Note 2.2)	2011 (As Restated – see Note 2.2)
<i>Reported in profit and loss</i>			
Current service cost	P 6,787,638	P 6,555,530	P 2,967,716
Interest expense	<u>2,899,330</u>	<u>2,650,737</u>	<u>1,068,190</u>
	<u>P 9,686,968</u>	<u>P 9,206,267</u>	<u>P 4,035,906</u>
<i>Reported in other comprehensive income</i>			
Actuarial losses (gains)			
arising from:			
Experience adjustments	P 19,414,018	P 684,268	P -
Changes in financial assumptions	4,554,459	7,153,620	-
Changes in demographic assumptions	<u>-</u>	<u>(2,191,106)</u>	<u>-</u>
	<u>P 23,968,477</u>	<u>P 5,646,782</u>	<u>P -</u>

The amounts of post-employment benefits expense recognized in profit or loss are presented as part of General and Administrative Expenses (for current service cost) and Other Charges (for interest expense) accounts in the consolidated statements of comprehensive income (see Note 15).

Amounts recognized in other comprehensive income were included within items that will not be reclassified subsequently to profit or loss.

In determining the amounts of the retirement benefit obligation, the following actuarial assumptions were used:

	<u>2013</u>	<u>2012</u>	<u>2011</u>
Discount rate	4.37%-5.10%	5.02%-5.63%	5.80%-7.93%
Expected rate of salary increase	4.00%-5.00%	4.00%-5.00%	4.00%-8.00%

Assumptions regarding future mortality are based on published statistics and mortality tables. The average remaining working life of an individual retiring at the age of 60 is 23 years for both male and female. These assumptions were developed by management with the assistance of an independent actuary. Discount factors are determined close to the end of each reporting period by reference to the interest rates of a zero coupon government bonds with terms to maturity approximating to the terms of the retirement benefit obligation. Other assumptions are based on current actuarial benchmarks and management's historical experience.

(c) *Risks Associated with the Retirement Benefit Obligation*

The Group is exposed to actuarial risks such as interest rate risk, longevity risk and salary risk.

(i) *Interest Rate Risks*

The present value of the defined benefit obligation is calculated using a discount rate determined by reference to market yields of government bonds. Generally, a decrease in the interest rate of a reference government bonds will increase the retirement benefit obligation.

(ii) *Longevity and Salary Risks*

The present value of the defined benefit obligation is calculated by reference to the best estimate of the mortality of the participants during and employment, and to their future salaries. Consequently, increases in the life expectancy and salary of the participants will result in an increase in the retirement benefit obligation.

(d) *Other Information*

The information on the sensitivity analysis for certain significant actuarial assumptions and the timing and uncertainty of future cash flows related to the retirement benefit obligation are described below.

(i) *Sensitivity Analysis*

The following table summarizes the effects of changes in the significant actuarial assumptions used in the determination of the retirement benefit obligation as of December 31, 2013:

	<u>Impact on Post-employment Benefit Obligation</u>		
	<u>Change in Assumption</u>	<u>Increase in Assumption</u>	<u>Decrease in Assumption</u>
Discount rate	+9.25%/-11.25%	(P 5,591,008)	P 6,778,993
Salary growth rate	+10.28%/-8.65%	6,212,881	(5,251,093)
Turn-over rate	-8.15%	5,111,492	-

The sensitivity analysis in previous page is based on a change in an assumption while holding all other assumptions constant. This analysis may not be representative of the actual change in the retirement benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the retirement benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the retirement benefit obligation recognized in the consolidated statements of financial position.

(ii) *Funding Arrangements and Expected Contributions*

At the end of the reporting period, the Group has no formal plan of funding its retirement benefit obligation. While there are no minimum funding requirement in the country, the size of the underfunding may pose a cash flow risk in about 13 years' time when a significant number of employees is expected to retire.

The expected maturity of undiscounted expected benefits payments is as follows:

Within one year	P 19,061,127
More than one to five years	14,398,954
More than five years	<u>49,414,183</u>
	<u>P 82,874,264</u>

The weighted average duration of the retirement benefit obligation at the end of the reporting period is 13 years.

17. TAXES

The components of tax expense (income) as reported in the consolidated statements of comprehensive income are as follows:

	<u>2013</u>	<u>2012</u> (As Restated see Note 2.2)	<u>2011</u> (As Restated see Note 2.2)
<i>Reported in profit or loss</i>			
Current tax expense:			
Regular corporate income tax (RCIT) at 30%	P 2,053,474,821	P 1,822,857,373	P 863,017,104
Final tax on interest income at 20% and 7.5%	25,572,537	11,004,777	5,208,669
Deferred tax income relating to origination of temporary differences	(<u>4,753,855</u>)	(<u>3,983,513</u>)	(<u>2,746,549</u>)
	<u>P 2,074,293,503</u>	<u>P 1,829,878,637</u>	<u>P 865,479,224</u>
<i>Reported in other comprehensive income</i>			
Net deferred tax income relating to remeasurement of retirement benefit obligation	(<u>P 7,190,543</u>)	(<u>P 1,694,035</u>)	<u>P -</u>

A reconciliation of tax on pretax profit computed at the applicable statutory rates to tax expense is as follows:

	<u>2013</u>	<u>2012</u> (As Restated – see Note 2.2)	<u>2011</u> (As Restated – see Note 2.2)
Tax on pretax profit at 30%	P 2,371,531,045	P 2,048,829,517	P 951,180,077
Adjustment for income subjected to lower tax rates	(12,887,979)	(5,498,234)	(2,604,335)
Additional deduction in claiming optional standard deduction (OSD)	(35,183,168)	(20,338,447)	-
Tax effects of:			
Non-taxable income	(249,484,428)	(208,782,114)	(83,130,583)
Unrecognized DTA on NOLCO	318,033	-	-
Non-deductible expenses	<u>-</u>	<u>15,667,915</u>	<u>34,065</u>
	<u>P 2,074,293,503</u>	<u>P 1,829,878,637</u>	<u>P 865,479,224</u>

The Group is subject to the higher of RCIT at 30% of net taxable income or minimum corporate income tax (MCIT) which is at 2% of gross income, as defined under the tax regulations. The Group paid RCIT in 2013, 2012 and 2011.

The deferred tax assets as of December 31 relate to the following:

	<u>2013</u>	<u>2012</u> (As Restated - see Note 2.2)
Retirement benefit obligation	P 26,334,096	P 16,237,463
Allowance for impairment	<u>5,901,264</u>	<u>4,053,499</u>
Deferred tax assets	<u>P 32,235,360</u>	<u>P 20,290,962</u>

Movements in net deferred tax assets for the years ended December 31 are as follows.

	<u>Profit or Loss</u>			<u>Other Comprehensive Income</u>		
	<u>2013</u>	<u>2012</u> (As Restated - see Note 2.2)	<u>2011</u> (As Restated - see Note 2.2)	<u>2013</u>	<u>2012</u> (As Restated - see Note 2.2)	<u>2011</u> (As Restated - see Note 2.2)
Retirement benefit obligation	P 2,906,090	P 2,761,879	P 1,210,772	P 7,190,543	P 1,694,035	P -
Allowance for impairment	<u>1,847,765</u>	<u>1,221,634</u>	<u>1,535,777</u>	<u>-</u>	<u>-</u>	<u>-</u>
Deferred tax income	<u>P 4,753,855</u>	<u>P 3,983,513</u>	<u>P 2,746,549</u>	<u>P 7,190,543</u>	<u>P 1,649,035</u>	<u>P -</u>

In 2013, 2012 and 2011, the Group opted to claim itemized deductions in computing its income tax due except for AWGI, which opted to claim OSD in 2013 and 2012.

18. RELATED PARTY TRANSACTIONS

The Group's related parties include the ultimate parent company, stockholders, officers and employees, and other related parties under common ownership as described below.

The summary of the Group's transactions with its related parties in 2013, 2012 and 2011 and the related outstanding balances as of December 31, 2013 and 2012 are as follows:

Related Party Category	Notes	Amount of Transaction			Outstanding Balance	
		2013	2012	2011	2013	2012
Ultimate Parent Company:						
Dividends paid	19.2	P 3,702,134,051	P 4,000,000,000	P 1,600,000,000	P -	P -
Advances obtained	18.6	(13,751,812)	-	-	-	13,751,812
Acquisition of AWGI	1.3	-	100,000,000	-	-	-
Lease of properties	18.3	8,000,000	8,000,000	-	8,965,576	405,567
Issuance of shares	1.2, 1.3	13,500,000,000	-	-	-	-
Related Parties Under Common Ownership:						
Purchase of raw materials	18.1	418,361,736	7,820,858,350	7,687,228,540	451,648,340	789,565,615
Purchase of imported goods	18.1	146,501,368	488,803,326	484,858,067	35,270,647	119,069,000
Lease of property	18.3	102,210,918	124,192,159	65,774,739	48,130,000	45,812,082
Advances obtained	18.6	(346,656,270)	81,697,696	1,871,549,375	900,671,942	1,247,328,212
Advances to a supplier	18.7	-	(36,698,391)	(466,372,324)	-	36,698,391
Sale of goods	18.4	26,996,239	5,150,247	3,638,080	5,032,459	4,690,584
Acquisition of machinery and equipment	18.2	-	-	-	191,584,700	191,584,700
Acquisition of distilling facility	18.8	897,569,335	-	-	-	-
Issuance of shares	19.1	1,431,764,995	-	-	-	-
Stockholder –						
Advances obtained	18.6	-	-	-	3,070,715	3,070,715
Officers and Employees –						
Advances granted	18.5	4,055,227	(7,151,058)	(4,073,004)	14,463,297	10,408,070

The Group's outstanding receivables from and payables to related parties arising from the above transactions are unsecured, noninterest-bearing and payable on demand, unless otherwise stated. No impairment loss was recognized in 2013, 2012 and 2011 for related party receivables.

Transactions with related parties are also discussed below.

18.1 Purchase of Goods

Prior to its acquisition of the distillery plant in 2013, the Group sources its alcohol requirements from Condis (see Note 18.8). The Group imports raw materials such as alcohol, flavorings and other items through Andresons Global, Inc. (AGL). There are also finished goods purchased from Condis and through AGL. These transactions are payable within 30 days. The outstanding balances as of December 31, 2013 and 2012 are shown as part of Trade Payables under the Trade and Other Payables account in the consolidated statements of financial position (see Note 12).

18.2 Acquisitions of Machinery and Equipment

In 2010, the Group purchased certain machinery and equipment from TEI for P285.4 million. Of the total purchase price, P191.6 million remained unpaid as of December 31, 2013 and 2012 and is shown as part of Trade Payables under the Trade and Other Payables account in the consolidated statements of financial position (see Note 12).

18.3 Lease Agreements

The Group has a renewable lease agreement with TEI as the lessor, covering its main manufacturing plant facilities, which is being renewed annually unless mutually terminated by both parties. Also, as part of the lease agreement, the lessor provides skilled workers who remain as employees of the lessor. Total rental expense arising from this lease amounted to P84.0 million, P108.0 million and P52.5 million for the years ended December 31, 2013, 2012 and 2011, respectively, and presented as part of Rentals account under Cost of Goods Sold in the consolidated statements of comprehensive income (see Note 14). As of December 31, 2013 and 2012, unpaid rental relating to this lease agreement amounted to P48.1 million and P45.8 million, respectively, and is presented as part of Trade Payables under Trade and Other Payables account in the consolidated statements of financial position (see Note 12).

The Group has a five-year lease contract with Megaworld Corporation, a related party under common ownership, as the lessor, for the head office space, which will mature in 2014. Total rental expense from this contract for the years ended December 31, 2013, 2012 and 2011 amounted to P18.2 million, P16.2 million and P13.3 million, respectively, and presented as part of Rentals under the Selling and Distribution Expenses and General and Administrative Expenses accounts in the consolidated statements of comprehensive income (see Note 15). There are no unpaid rentals regarding this lease agreement as of December 31, 2013 and 2012.

In relation to the above lease agreements, the Group paid the lessors refundable security deposits shown as part of Other Non-current Assets in the consolidated statements of financial position with carrying amounts of P24.1million and P24.0 million as of December 31, 2013 and 2012, respectively (see Note 11).

Meanwhile, AWGI leases the glass manufacturing plant located in Laguna from AGI. The amount of rental is mutually agreed annually between AGI and AWGI. Rentals amounting to P8.0 million for the years ended December 31, 2013 and 2012 were charged to operations under Cost of Goods Sold in the consolidated statements of comprehensive income (see Note 14). The outstanding liability from this transaction is shown as Trade payables under the Trade and Other Payables account in the consolidated statements of financial position (see Note 12).

18.4 Sale of Goods

The Group sold finished goods to some of its related parties. Goods are sold on the basis of the price lists in force and terms that would be available to non-related parties. The outstanding receivables from these transactions are generally noninterest-bearing, unsecured and settled through cash. These receivables are presented as part of Trade Receivables under Trade and Other Receivables account in the consolidated statements of financial position (see Note 6).

18.5 Advances to Officers and Employees

In the normal course of business, the Group grants noninterest-bearing, unsecured, and payable on demand cash advances to certain officers and employees. The outstanding balance arising from these transactions as of December 31, 2013 and 2012 are presented as Advances to Officers and Employees under the Trade and Other Receivables account in the consolidated statements of financial position (see Note 6).

The movements in the balance of Advances to Officers and Employees are as follows:

	<u>2013</u>	<u>2012</u>
Balance at beginning of year	P 10,408,070	P 17,559,128
Additions	12,406,678	9,168,867
Repayments	(8,351,451)	(16,319,925)
Balance at end of period	<u>P 14,463,297</u>	<u>P 10,408,070</u>

18.6 Advances from Related Parties

Certain entities within the AGI Group and other related parties grant cash advances to the Group for its working capital, investment and inventory purchases requirements. These advances are unsecured, non-interest bearing and repayable upon demand in cash. These are presented as Advances from Related Parties under the Trade and Other Payables account in the consolidated statements of financial position (see Note 12).

The movements in the balance of Advances from Related Parties are as follows:

	<u>2013</u>	<u>2012</u>
Balance at beginning of year	P 1,264,150,739	P 1,345,848,435
Repayments	(360,408,082)	(81,697,696)
Balance at end of year	<u>P 903,742,657</u>	<u>P 1,264,150,739</u>

18.7 Advances to a Related Party Supplier

In 2012, the Group made unsecured, noninterest-bearing cash advances to Condis, which is also EDI's supplier. These advances have no definite repayment terms and are due and demandable anytime. These advances were already fully settled as of December 31, 2012.

The movements of these advances in 2012 are as follows:

Balance at beginning of year	P 36,698,391
Additions	29,438,572
Repayments	(66,136,963)
	<u>P -</u>

18.8 Acquisition of Distilling Facilities

In 2013, the Group acquired the distillery facilities of Condis, which include the following assets:

	Notes	
Property, plant and equipment	9	P 756,990,993
Inventories	8	<u>140,578,342</u>
		<u>P 897,569,335</u>

The acquisition was fully settled in cash in 2013.

18.9 Key Management Personnel Compensation

The compensation of key management personnel for employee services is shown below.

	2013	2012	2011
Short-term benefits	P 21,270,635	P 19,720,287	P 12,168,510
Post-employment defined benefits	<u>763,869</u>	<u>728,671</u>	<u>640,448</u>
	<u>P 22,034,504</u>	<u>P 20,448,958</u>	<u>P 12,808,958</u>

19. EQUITY

19.1 Capital Stock

Capital stock consists of:

	Shares		Amount at P1 Par	
	2013	2012	2013	2012
Common stock – P1 par value				
Authorized no. of shares	<u>20,000,000,000</u>	<u>100,000,000</u>	<u>P 20,000,000,000</u>	<u>P 100,000,000</u>
Issued:				
Balance at beginning of year	61,750,005	55,750,005	P 61,750,005	P 55,750,005
Issued during the year	<u>14,938,249,995</u>	<u>6,000,000</u>	<u>14,938,249,995</u>	<u>6,000,000</u>
Balance at end of year	<u>15,000,000,000</u>	<u>61,750,005</u>	<u>P 15,000,000,000</u>	<u>P 61,750,005</u>

The BOD of the PSE approved the listing of the commons shares of the Company on October 16, 2011.

On December 19, 2011, the Company issued through initial public offering (IPO) an additional 22.0 million shares with an offer price of P4.50 per share. The Company incurred P10.9 million IPO-related costs, P4.2 million of which was charged against APIC and the balance was recognized as part of other operating expenses. Net proceeds from the IPO amounted to P90.8 million.

On December 27, 2012, the Company issued additional 6.0 million shares with an offer price of P5.50 per share through private placement.

On June 19, 2013, August 27, 2013 and September 5, 2013, the Company's BOD, stockholders, and SEC, respectively, approved the increase in authorized capital stock of the Company from P100.0 million divided into 100.0 million shares to P20.0 billion divided into 20.0 billion shares both with par value of P1.00 per share (see Note 1.2).

On July 4, 2013, the Company's BOD approved the issuance of 6.5 million shares at par value to two foreign investors.

On August 28, 2013, AGI and other investors subscribed to an aggregate of 14.9 billion shares. Under the terms of AGI's subscription, the Company acquired all of EDI shares held by AGI (see Notes 1.2 and 1.3).

On September 17, 2013, AGI launched an offering of 1.8 billion shares of EMP's shares, which is approximately 12% of the total issued shares. The said offering was priced at P8.98 per share. On September 25, 2013, the settlement date, the amount of P11.2 billion out of the proceeds was directly remitted to EMP as an additional subscription price from AGI under the terms of AGI's amended agreement; such amount is recorded as APIC in EMP's books. Costs related to the issuances amounting to P176.3 million were charged directly against APIC.

On September 25, 2013, AGI beneficially acquired two EMP's minority corporate shareholders which held a combined 9.55% of the total issued shares. Thus, AGI beneficially owns 87.55% of EMP as of December 31, 2013.

As of December 31, 2013, the quoted closing price per share was P10.70, and there are 181 holders, which include nominees, of the Company's total issued and outstanding shares. The percentage shares of stocks owned by the public is 12.45%.

19.2 Declaration of Dividends

EDI's BOD approved the declaration of cash dividends of P3.7 billion (P0.30 per share) and P4.0 billion (P0.57 per share) on July 5, 2013 and December 7, 2012, respectively, payable to stockholders of record as of July 16, 2013 and December 17, 2012, respectively. The dividends were paid within their respective year of declaration and approval. EDI's parent company as of the aforementioned dividend declarations is AGI for 2013 and 2012.

EMP, on the other hand, has not declared any cash dividends during the year.

20. EARNINGS PER SHARE

Earnings per share were computed as follows:

	<u>2013</u>	<u>2012</u> (As Restated – see Note 2.2)	<u>2011</u> (As Restated – see Note 2.2)
Net profit	P 5,830,809,981	P 4,999,553,086	P 2,305,121,031
Divided by the weighted average number of outstanding common shares of EDI	<u>11,133,917,808</u>	<u>2,610,000,000</u>	<u>2,160,000,000</u>
	<u>P 0.52</u>	<u>P 1.92</u>	<u>P 1.07</u>

The Group has no potentially dilutive instruments; thus, basic and dilutive earnings per share are the same.

21. COMMITMENTS AND CONTINGENCIES

The Group entered into non-cancellable leases covering certain manufacturing plant facilities, storage tanks and office spaces. The leases are for a period of one and five years, respectively, which are renewable thereafter upon mutual agreement of both parties. Several warehouse lease agreements with different lessors were likewise executed in 2013 and 2012 with lease period ranging from one to three years, which are renewable thereafter upon mutual agreement between the parties. The future minimum rentals payable under these operating leases as of December 31, 2013 and December 31, 2012 are as follows:

	<u>2013</u>	<u>2012</u>
Within one year	P 56,923,846	P 72,829,084
After one year but not more than five years	<u>12,572,691</u>	<u>63,484,852</u>
	<u>P 69,496,537</u>	<u>P 136,313,936</u>

There are other commitments and contingent liabilities that arise in the normal course of the Group's operations which are not reflected in the consolidated financial statements. Management is of the opinion that losses, if any, from these commitments and contingencies will not have material effects on the Group's consolidated financial statements.

22. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group is exposed to a variety of financial risks which result from its operating activities. The Group's risk management is coordinated with AGI, in close cooperation with the BOD appointed by AGI, and focuses on actively securing the Group's short-to-medium term cash flows by minimizing the exposure to financial markets.

There have been no significant changes in the Group's financial risk management objectives and policies during the period.

The Group does not engage in the trading of financial assets for speculative purposes nor does it write options. The most significant financial risks to which the Group is exposed to are described in the succeeding paragraphs.

22.1 Market Risk

The Group is exposed to market risk through its use of financial instruments and specifically to foreign currency risk, interest rate risk and certain other price risk which result from both its operating, investing and financing activities.

(a) Foreign Currency Risk

Most of the Group's transactions are carried out in Philippine pesos, its functional currency. Exposures to currency exchange rates arise from the Group's foreign currency-denominated transactions, which are primarily denominated in U.S. dollars (USD).

To mitigate the Group's exposure to foreign currency risk, non-Philippine peso cash flows are monitored.

Foreign currency denominated financial assets and liabilities (all denominated in USD), translated into Philippine pesos at the closing rate, are as follows:

	<u>2013</u>	<u>2012</u>
Financial assets	P 3,111,066,586	P 2,886,211,610
Financial liabilities	<u>1,738,868,577</u>	<u>1,645,282,302</u>
	<u>P 1,372,198,009</u>	<u>P 1,240,929,308</u>

The following table illustrates the sensitivity of the Group's profit before tax with respect to changes in Philippine pesos against USD exchange rates. The percentage changes in rates have been determined based on the average market volatility in exchange rates, using standard deviation, in the previous 12 months at a 68% confidence level.

	<u>2013</u>	<u>2012</u>
Reasonably possible change in rate	23%	14%
Effect in profit before tax	P 315,605,542	P 173,730,103

Exposures to foreign exchange rates vary during the year depending on the volume of overseas transactions. Nonetheless, the analysis above is considered to be representative of the Group's foreign currency risk.

(b) *Interest Rate Risk*

As at December 31, 2013 and 2012, the Group is exposed to changes in market rates through its cash in banks and short-term placements which are subject to 30-day re-pricing intervals (see Note 5). Due to the short duration of short-term placements, management believes that interest rate sensitivity and its effect on the net results and equity are not significant.

22.2 Credit Risk

Generally, the maximum credit risk exposure of financial assets is the total carrying amount of the financial assets as shown in the consolidated statements of financial position, as summarized below.

	<u>Notes</u>	<u>2013</u>	<u>2012</u>
Cash and cash equivalents	5	P 24,040,194,994	P 4,656,449,593
Trade and other receivables – net	6	2,848,613,460	1,952,402,449
Refundable security deposits	11	34,755,535	38,048,832
Financial assets at FVTPL	7	<u>-</u>	<u>170,070,472</u>
		<u>P 26,923,563,989</u>	<u>P 6,816,971,346</u>

The Group's management considers that all the above financial assets that are not impaired as at the end of reporting period under review are of good credit quality.

(a) *Cash and Cash Equivalents*

The credit risk for cash and cash equivalents is considered negligible, since the counterparties are reputable banks with high quality external credit ratings. Included in the cash and cash equivalents are cash in banks and short-term placements which are insured by the Philippine Deposit Insurance Corporation up to a maximum coverage of P500,000 for every depositor per banking institution.

(b) *Trade and Other Receivables*

In respect of trade and other receivables, the Group is not exposed to any significant credit risk exposure. In determining credit risk, trade and other receivables excludes advances to supplier amounting to P176.9 million and P39.0 million as of December 31, 2013 and 2012, respectively (see Note 6).

The age of trade and other receivables that are past due but unimpaired is as follows:

	<u>2013</u>	<u>2012</u>
Not more than three months	P 1,164,740,755	P 783,691,528
More than three months but not more than six months	<u>186,771,704</u>	<u>95,037,427</u>
	<u>P 1,351,512,459</u>	<u>P 878,728,955</u>

The Group has no trade and other receivables that are past due for more than six months.

None of the financial assets are secured by collateral or other credit enhancements.

22.3 *Liquidity Risk*

The Group manages its liquidity needs by carefully monitoring cash out flows due in day-to-day business. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on the basis of a rolling 60-day projection. Long-term liquidity needs for a six-month and one-year period are identified monthly.

The contractual maturities of trade and other payables (except for output VAT payable, and withholding tax payables and advances from suppliers under others) and derivative liabilities reflect the gross cash flows, which approximates the carrying values of the liabilities at the end of each reporting period. As at December 31, 2013 and 2012, the Group's financial liabilities, which have contractual maturities of less than 12 months after the end of the reporting period, are presented below.

	<u>2013</u>		<u>2012</u>	
	<u>Within 6 Months</u>	<u>6 to 12 Months</u>	<u>Within 6 Months</u>	<u>6 to 12 Months</u>
Trade and other payables	P 3,366,111,588	P -	P 3,735,549,836	P -
FVTPL liability	<u>38,631,143</u>	<u>-</u>	<u>-</u>	<u>-</u>
	<u>P 3,404,742,731</u>	<u>P -</u>	<u>P 3,735,549,836</u>	<u>P -</u>

The Group maintains cash to meet its liquidity requirements for up to seven-day periods. Excess cash funds are invested in time deposits.

23. CATEGORIES AND OFFSETTING OF FINANCIAL ASSETS AND LIABILITIES

23.1 Carrying Amounts and Fair Values of Financial Assets and Financial Liabilities

The carrying amounts and fair values of the categories of financial assets and liabilities presented in the consolidated statements of financial position are shown below.

		2013		2012	
	Notes	Carrying Values	Fair Values	Carrying Values	Fair Values
Financial Assets					
Loans and receivables:					
Cash and cash equivalents	5	P 24,040,194,994	P 24,040,194,994	P 4,656,449,593	P 4,656,449,593
Trade and other receivables	6	2,848,613,460	2,848,613,460	1,952,402,449	1,952,402,449
Refundable security deposits	11	34,755,535	34,755,535	38,048,832	38,048,832
FVTPL financial asset	7	-	-	170,070,472	170,070,472
		<u>P 26,923,563,989</u>	<u>P 26,923,563,989</u>	<u>P 6,816,971,346</u>	<u>P 6,816,971,346</u>
Financial Liabilities					
Financial liabilities at amortized cost:					
Trade and other payables	12	P 3,366,111,588	P 3,366,111,588	P 3,735,549,836	P 3,735,549,836
FVTPL liability	7	38,631,143	38,631,143	-	-
		<u>P 3,404,742,731</u>	<u>P 3,404,742,731</u>	<u>P 3,735,549,836</u>	<u>P 3,735,549,836</u>

See Notes 2.5 and 2.10 for a description of the accounting policies for each category of financial instruments including the determination of fair values. A description of the Group's risk management objectives and policies for financial instruments is provided in Note 22.

23.2 Offsetting of Financial Assets and Financial Liabilities

The following financial assets and financial liabilities with net amounts presented in the statement of financial position are subject to offsetting and similar agreements (see Note 5):

	2013			
	Gross Amount Recognized	Amount Set-Off	Amount of Cash Received	Net Amount Presented*
Financial asset – Cash and cash equivalents	<u>P 2,928,836,789</u>	<u>P 799,351,000</u>	<u>P -</u>	<u>P 2,129,485,789</u>
	2012			
	Gross Amount Recognized	Amount Set-Off	Amount of Cash Received	Net Amount Presented*
Financial asset – Cash and cash equivalents	<u>P 2,715,830,433</u>	<u>P 397,841,368</u>	<u>P -</u>	<u>P 2,317,989,065</u>

*The net amount is presented as part of Short-term placements under the Cash and Cash Equivalents account in the consolidated statements of financial position (see Note 5).

Currently, the Group's other financial assets and liabilities are settled on a gross basis because there is no relevant offsetting arrangement on them as of December 31, 2013. In subsequent reporting periods, each party to the financial instruments (particularly those involving related parties) may decide to enter into an offsetting arrangement in the event of default of the other party.

24. FAIR VALUE MEASUREMENT AND DISCLOSURES

24.1 Fair Value Hierarchy

In accordance with PFRS 13, the fair value of financial assets and liabilities and non-financial assets which are measured at fair value on a recurring or non-recurring basis and those assets and liabilities not measured at fair value but for which fair value is disclosed in accordance with other relevant PFRS, are categorized into three levels based on the significance of inputs used to measure the fair value. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that an entity can access at the measurement date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and,
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which the asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

For purposes of determining the market value at Level 1, a market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

24.2 Financial Instruments Measured at Fair Value

The table below shows the fair value hierarchy of the Group's classes of financial assets and financial liabilities measured at fair value in the statements of financial position on a recurring basis as of December 31, 2013 and 2012.

2013				
	Level 1	Level 2	Level 3	Total
Financial liability –				
FVTPL financial liability	P 38,631,143	P -	P -	P 38,631,143
2012				
	Level 1	Level 2	Level 3	Total
Financial assets –				
FVTPL financial asset	P 170,070,472	P -	P -	P 170,070,472

There were neither transfers between Levels 1 and 2 nor changes in Level 3 instruments in both years.

As of December 31, 2013 and 2012, the financial instruments included in Level 1 comprise of foreign exchange spots and forward contracts classified as financial instruments at FVTPL (see Note 7).

24.3 Financial Instruments Measured at Amortized Cost for which Fair Value is Disclosed

The table below summarizes the fair value hierarchy of the Group's financial assets and financial liabilities which are not measured at fair value in the 2013 consolidated statement of financial position but for which fair value is disclosed.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Financial assets:				
Cash and cash equivalents	P24,040,194,994	P -	P -	P 24,040,194,994
Trade and other receivables	-	-	2,848,613,460	2,848,613,460
Refundable security deposits	-	-	34,755,535	34,755,535
	<u>P24,040,194,994</u>	<u>P -</u>	<u>P 2,883,368,995</u>	<u>P 26,923,563,989</u>
Financial liabilities –				
Trade and other payables	<u>P -</u>	<u>P -</u>	<u>P 3,366,111,588</u>	<u>P 3,366,111,588</u>

For financial assets and financial liabilities with fair values included in Level 1, management considers that the carrying amounts of those short-term financial instruments approximate their fair values.

25. CAPITAL MANAGEMENT OBJECTIVES POLICIES AND PROCEDURES

The Group's capital management objectives are to ensure the Group's ability to continue as a going concern and to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Group monitors capital on the basis of the carrying amount of equity as presented in the face of the consolidated statements of financial position. Capital at the end of each reporting period is summarized as follows:

	<u>2013</u>	<u>2012</u> (As Restated – see Note 2.2)	<u>2011</u> (As Restated – see Note 2.2)
Total liabilities	P 4,336,848,366	P 4,350,314,530	P 4,122,291,821
Total equity	<u>30,888,513,814</u>	<u>8,483,166,022</u>	<u>4,542,339,134</u>
Debt-to-equity ratio	<u>0.14: 1</u>	<u>0.51: 1</u>	<u>0.91: 1</u>

The Group sets the amount of capital in proportion to its overall financing structure, i.e., equity and financial liabilities. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, issue new shares or sell assets to reduce debt.

We have audited in accordance with Philippine Standards on Auditing, the consolidated financial statements of Emperor Inc. and Subsidiaries for the year ended December 31, 2013, on which we have rendered our report dated March 26, 2014. Our audit was made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The applicable supplementary information (see List of Supplementary Information) are presented for purposes of additional analysis in compliance with the requirements under the Securities Regulation Code Rule 68, and are not a required part of the basic consolidated financial statements prepared in accordance with Philippine Financial Reporting Standards. Such supplementary information are the responsibility of management. The supplementary information have been subjected to the auditing procedures applied in the audit of the basic consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic consolidated financial statements taken as a whole.
